

Entourage

IT — Una cupola, forma archetipica reinterpretata in ottica contemporanea. Rivestita con nuovi materiali, al polietilene si aggiungono le audaci finiture cemento, cortén e gesso. La tecnologia Warm Tune™ permette di dimmerare l'intensità luminosa variando contemporaneamente la temperatura colore.

FR — Une forme archétypale, la coupole, est réinterprétée dans une perspective contemporaine. Elle est revêtue de nouveaux matériaux : au polyéthylène s'ajoutent les finitions audacieuses ciment, corten et plâtre. La technologie Warm Tune™ permet de varier en même temps l'intensité lumineuse et de la température de couleur.

ES — Una cúpula, una forma arquetípica reinterpretada en una óptica contemporánea. Revestida con nuevos materiales, los atrevidos acabados en cemento, corten y yeso se suman al polietileno. La tecnología Warm Tune™ permite regular la intensidad luminosa al variar al mismo tiempo la temperatura color.

EN — A dome, revisited archetypic shape in contemporary twist. Covered with new finishes, adding to opal polyethylene the concrete, corten and plaster daring finishes. Warm Tune™ technology allows dimmable luminous intensity and color temperature control simultaneously.

DE — Die klassische Form einer Halbkugel in einer modernen Interpretation. Zu den neuen Materialien der Oberfläche kommen neben Polyethylen auch die gewagteren Versionen aus Zement, Corten und Gips. Die Warm Tune™ Technologie erlaubt es, gleichzeitig die Helligkeit und die Farbtemperatur zu ändern.

PY — Архетипная форма купола, интерпретированная в современном ключе. Отделка из новых материалов: наряду с полиэтиленом используется смелая отделка из цемента, кортена и гипса. Технология Warm Tune™ позволяет регулировать яркость света, одновременно изменяя цветовую температуру.
