

# NYX 330 - CHANGE LED

Remove the diffuser by means of 5 mm hex key. If required, the diffuser can be removed from its base in horizontal position.

Remove the lamp before removing the reflector.

Unfasten the plug and remove the base plate.

Mount new brackets opposite each other - back and front.

Press the LED module into position and connect the plug.

Switch to new reflector and close the diffuser, **max moment of force 1.5 Nm**

**FOCUS-LIGHTING**
