# LINEA LIGHT GROUP

Dalla nascita, nel 1985, ad oggi Linea Light Group è cresciuto fino a diventare ed essere riconosciuto come uno tra i maggiori player per l'illuminazione tecnica e decorativa. Queste due anime convivono e si alimentano a vicenda, grazie alla costante e continua ricerca formale e tecnologica del gruppo.

Con la recente acquisizione dello storico brand Stilnovo, celebre per i suoi prodotti innovativi e sperimentali, si arricchisce l'offerta decorativa di Linea Light Group. Da Stilnovo abbiamo ereditato oggetti luminosi disegnati da Ettore Sottsass e De Pas D'urbino Lomazzi passando per Joe Colombo, a queste icone abbiamo affiancato nuove lampade sviluppate interamente in azienda. L'acquisizione completa la collezione Decòrative composta da prodotti dalla grande personalità e dalla forte presenza scenica.

From the time of its establishment in 1985 to the present, Linea Light Group has grown to the point of becoming and being known as one of the major players in technical and decorative lighting. These two spirits co-exist and fuel one another thanks to the group's constant and continuous technological research.

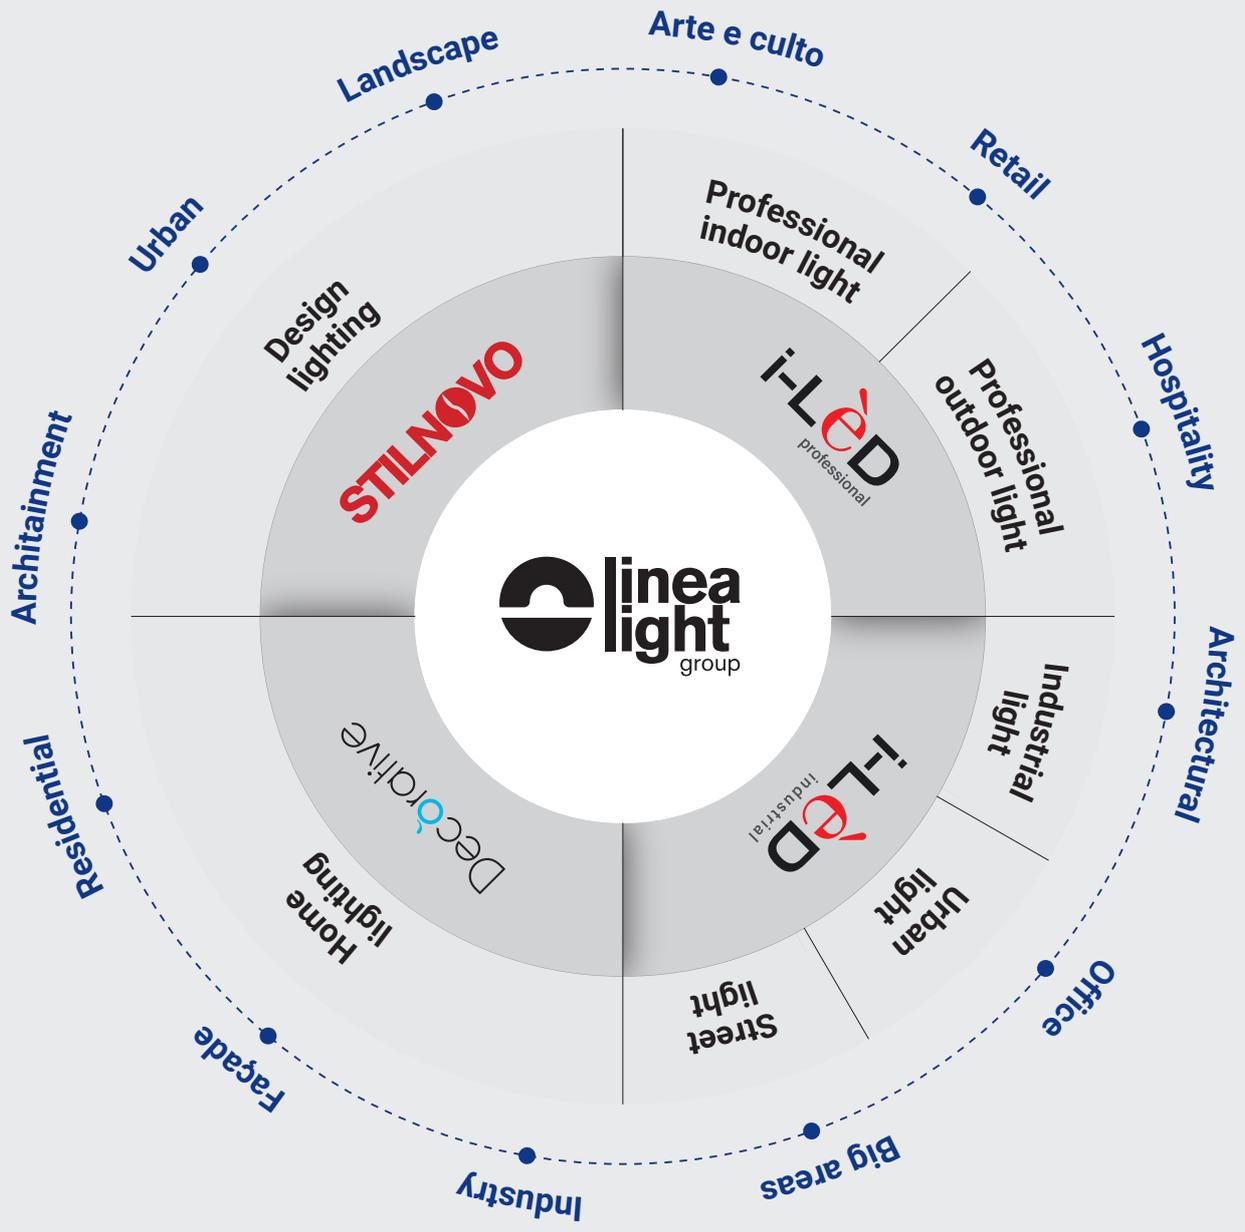

With the recent acquisition of the historic Stilnovo brand, famous for its innovative and experimental products, Linea Light Group's decorative range is enriched. From Stilnovo, we inherited lighting items designed by Ettore Sottsass and De Pas D'urbino Lomazzi, as well as Joe Colombo, and we brought new lights alongside these icons, developed entirely in-house. The acquisition completes the Decòrative collection made up of products with great personality and a strong dramatic presence.

Contemporaneamente Linea Light Group mantiene la sua presenza di leadership nell'illuminazione professionale con il brand I-Lèd, riconosciuto come uno tra i maggiori innovatori in ambito LED. Dal 2019 siamo posizionati nel segmento urban & industrial lighting con prodotti dedicati, rafforzando la nostra presenza nel mercato dell'illuminazione tecnica con prodotti efficienti e innovativi.

La completezza dei nostri cataloghi ci consente di essere presenti e attivi, su canali di vendita diversificati, permettendoci di fornire in maniera ottimale e veloce ogni nostro cliente. Precisione, rapidità e affidabilità sono i caratteri che da sempre definiscono Linea Light Group.

Linea Light Group simultaneously maintains its presence as a leader in professional lighting with the I-Lèd brand, acknowledged as one of the major innovators in the LED area. From 2019, we have been in the urban & industrial lighting segment with dedicated products, reinforcing our presence in the technical lighting market with efficient and innovative products. The completeness of our catalogues allows us to be present and active on diversified sales channels, so we are able to supply all our customers optimally and quickly. Precision, speed and reliability are the characteristics that have always defined Linea Light Group.

# AZIENDA INTERNAZIONALE

## Tre hub produttivi per garantire un servizio globale su misura a disposizione del professionista della luce

Linea Light Group è un insieme unico di realtà specializzate nei diversi ambiti che compongono l'universo dell'illuminazione, indipendenti e coordinate allo stesso tempo. Una formula che consente di creare soluzioni complete e originali, in qualsiasi contesto, dai sistemi integrati per grandi edifici residenziali o pubblici, all'illuminazione per esterni o in immersione, dagli ambienti domestici agli spazi commerciali, industriali, istituzionali e collettivi.

Linea Light Group si è distinta per un approccio al mercato attento alle peculiarità e alle esigenze dei partner locali in un'ottica "Think Global, Act Local", puntando alla connessione delle aree e al servizio curato su distanze ridotte. Oggi Linea Light Group è un'azienda con una forte presenza internazionale, con una rete capillare sempre al fianco dei propri partner ovunque siano i loro progetti.

# INTERNATIONAL COMPANY

## Three production hubs to guarantee tailored global service at the disposal of lighting professionals

Linea Light Group is a unique group specialised in a diverse range of domains within the world of lighting. It is independent yet coordinated at the same time. Its formula allows for the creation of complete, unique solutions in any given context: from integrated systems for large residential or public buildings to outdoors or underwater lighting; from home environments to commercial, industrial, institutional or public spaces.

Linea Light Group stands out thanks to a market approach that is attentive to specific requirements and to the demands of local partners. Its "Think Global, Act Local" vision focusses on making connections between different areas and on managing services from a shorter distance. Today, Linea Light Group is a company with a strong international presence and an extensive network: wherever their projects may take them, their partners will be right by their side.

# SOSTENIBILITÀ, QUALITÀ E GARANZIA

Linea Light Group investe e continua a perseguire una filosofia green-oriented per tutti i reparti dell'azienda, dagli uffici alla produzione al magazzino. Da molti anni l'azienda dedica risorse al contenimento dell'impatto ambientale delle diverse attività, grazie a provvedimenti in favore di uno sviluppo sostenibile come l'uso di energie rinnovabili quasi totalmente auto-prodotte, la riduzione dei consumi e delle emissioni di CO2, il recupero e il riciclo degli scarti di produzione e delle materie prime. Queste sono solo alcune tra le attività ecocompatibili intraprese per incrementare un modello economico virtuoso. Lo smaltimento dei rifiuti e il loro riciclo sono due temi importanti per il Gruppo: tutti i rifiuti aziendali sono smaltiti correttamente, seguendo precise normative e rigidi protocolli al fine di evitare ogni dispersione nei terreni e nei corsi d'acqua. Per questo come Gruppo il nostro impegno è costantemente concentrato su ricerca e sviluppo di soluzioni atte a ridurre l'impatto ambientale al minimo.

Un esempio è l'utilizzo di nuovi olii biologici come lubrificanti per i macchinari della produzione come macchine C.N.C e linee taglio. Per queste strumentazioni usiamo lubrorefrigeranti di origine vegetale (a base di esteri di sintesi) ed esenti da olio minerale, cloro, ammine secondarie, conservanti a rilascio di formaldeide, boro e i loro derivati. Al termine del ciclo produttivo gli olii esausti vengono recuperati e riciclati ad opera di aziende specializzate e certificate. In aggiunta a questi curiamo anche altri aspetti che ci hanno portato a un sempre minore impatto ambientale. In primo luogo, la sostituzione dei macchinari obsoleti ed energivori con nuove attrezzature più efficienti e quindi più efficaci. In secondo luogo, l'utilizzo di speciali filtri d'aria che riducono notevolmente le emissioni dei macchinari per il taglio laser. Anche le postazioni di lavoro, nei singoli reparti, sono state studiate per avere consumi energetici ridotti e ottimizzati.

# SUSTAINABILITY, QUALITY AND GUARANTEE

Linea Light Group invests in and continues to pursue a green-oriented philosophy for all company departments, from offices to production to the warehouse. The company has dedicated resources to containing the environmental impact of the various operations for many years, thanks to measures in favour of sustainable development such as the use of almost entirely self-produced renewable energies, the reduction of consumption and CO2 emissions, as well as the recovery and recycling of production scrap and raw materials. These are just a few of the eco-compatible operations undertaken to grow a virtuous economic model. Waste disposal and recycling are two important issues for the Group: all company waste is correctly disposed of, following precise regulations and strict protocols in order to avoid any dispersal into the soil or waterways. This is why, as a Group, our efforts are constantly focused on the research and development of solutions intended to reduce environmental impact to a minimum.

One example is the use of new organic oils as lubricants for our production machinery such as C.N.C. machines and cutting lines. For this instrumentation, we use plant-origin lubricating coolants (synthetic esters-based) and free of mineral oil, chlorine, secondary amines, formaldehyde-releasing preservatives, boron and derivatives thereof. At the end of the production cycle, the depleted oils are recovered and recycled by specialised and certified companies. In addition to this, we also manage other aspects that have led us to an increasingly lower environmental impact. In the first place, the replacement of obsolete and energy-intensive machinery with new, more efficient and therefore more effective equipment. Secondly, the use of special air filters which significantly reduce the emissions of the laser-cutting machinery. The work stations in the individual departments have also been designed to reduce and optimise energy consumption.

group

# MADE IN ITALY

Linea Light Group è una realtà manifatturiera che, accanto alla propria capacità industriale, ha saputo preservare una quota di manualità artigiana, che da sempre caratterizza il Made in Italy. Dall'ideazione alla creazione fino all'assemblaggio i nostri prodotti sono la combinazione di alta tecnologia, ricerca e saper fare, una ricetta che ha reso le aziende italiane uniche nel mondo.

Accanto alle macchine tradizionali abbiamo affiancato tecnologie nuove e performanti, che ci permettono di realizzare internamente tutte le lavorazioni che hanno reso i nostri prodotti unici. Come la macchina per la microincisione laser del PMMA fondamentale per la OptiLight Technology®.

Linea light Group si è dotata di sistemi per l'impermeabilizzazione degli apparecchi con caratteristiche per l'immersione permanente, per una perfetta sigillatura dei diffusori e per la saldatura a ultrasuoni creando reparti dedicati. Siamo andati oltre la costruzione, un prodotto perfetto deve essere anche testato e certificato, per questo Linea Light Group ha un proprio laboratorio interno. Qui si possono eseguire tutti i test dalla resistenza al calore, agli urti, alla verifica della carrabilità degli up-light, alle classi IP per i prodotti a immersione.

Linea Light Group is a manufacturing organisation which, along with its industrial capacity, has skilfully preserved a measure of that manual craftsmanship which has always characterised "Made in Italy" products. From conception to creation and all the way to assembly, our products are the combination of high technology, research and know-how, a recipe that has made Italian companies unique the world over.

Alongside traditional machines, we have added new, high-performance technologies that allow us to carry out all the processes in-house that have made our products unique. Like the PMMA laser micro-etching machine that is fundamental to OptiLight Technology®. Linea light Group has equipped itself with systems for waterproofing the luminaires with features for permanent immersion, for perfect sealing of the diffusers and for ultrasonic welding by creating dedicated departments. We have gone beyond construction, a perfect product must also be tested and certified, which is why Linea Light Group has its own in-house laboratory. All tests can be carried out here, from heat resistance, impact resistance, up light carriage ability testing to IP classes for immersion products.

Autostore headquarter, Treviso, Italy

# PROGETTAZIONE DESIGN

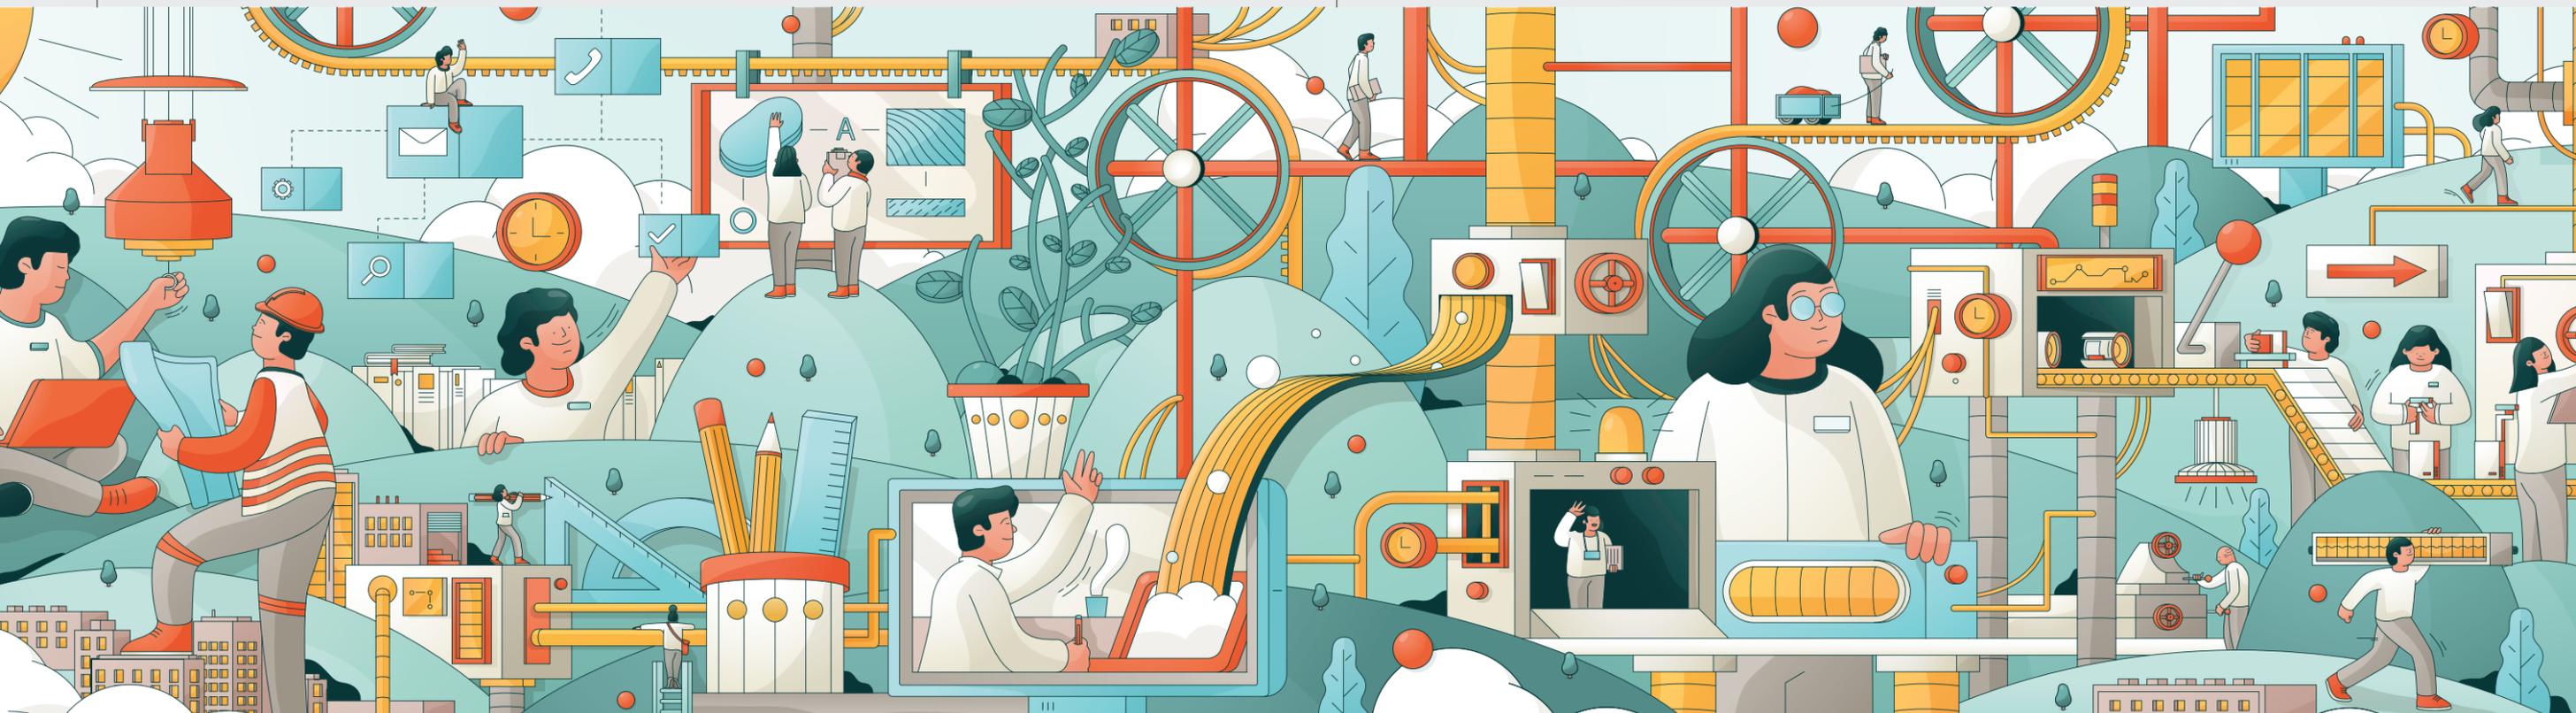

La conoscenza del prodotto, di tutte le sue componenti e minuterie, della relazione tra ogni singola parte meccanica ed elettronica, delle ottiche, permette la progettazione di soluzioni pensate per il Cliente.

Knowledge of the product, of all its components and smallest details, of the relationship between each individual mechanical and electronic part and of the optics lets us design solutions conceived for the customer.

# TEST

Le aree test includono macchinari per eseguire test di resistenza al calore, agli urti, per verificare l'IP, la carrabilità degli upright, la resistenza dei materiali alla corrosione e agli ambienti salini, etc. Specifiche strumentazioni consentono di testare i componenti elettronici contro sovratensioni e scariche elettrostatiche, ricavare curve fotometriche precise oppure verificare l'affidabilità dei protocolli DALI e bluetooth.

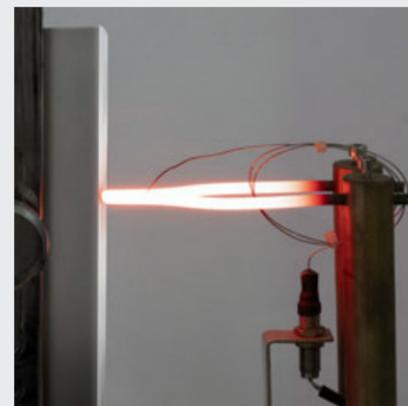

The test areas include machinery to conduct heat resistance and impact resistance tests, as well as to check the IP rating, the capability of the uprights to withstand traffic, the resistance of the materials to corrosion and saline environments, etc. Using specific instrumentation, we are able to test the electronic components against power surges and electrostatic discharges, obtain precise photometric curves or check the reliability of the DALI and bluetooth protocols.

# PRODUZIONE PRODUCTION

Linea Light Group adotta un modello industriale che prevede, nelle varie fasi che compongono la produzione, un approccio manifatturiero alla creazione e all'assemblaggio dei prodotti. Il "saper fare" tipico dell'artigiano trasportato in una realtà produttiva moderna.

Linea Light Group adopts an industrial model which includes, in the various stages that make up the production, a manufacturing approach to the creation and assembly of the products. The typical "know-how" of the craftsman brought into a modern production situation.

# LOGISTICA LOGISTICS

Il nuovo magazzino di stoccaggio, cuore del sito produttivo di Vazzola (TV), tocca i 24.000 mq complessivi per una capacità di stoccaggio di 21.000 unità di carico equivalenti a circa 420.000 Kg.

The new storage warehouse, the heart of the Vazzola (TV) production site, makes up a total of 24,000 m<sup>2</sup> for a storage capacity of 21,000 load units, equivalent to about 420,000 Kg.

Laser micro-etching machine for PMMA

10 robot plug-and-play ad alta efficienza, dal peso di soli 150 kg per robot e dotati di un sistema di recupero dell'energia in frenata, garantiscono un consumo energetico ottimizzato. Anche le postazioni di lavoro sono studiate per avere consumi ridotti.

10 high efficiency plug-and-play robots, weighing just 150 kg per robot and featuring an energy recovery system in braking, guarantee optimised energy consumption. The work stations have also been designed to reduced consumption.

# SOLUZIONI PER OGNI CATEGORIA PROGETTUALE

Linea Light Group con oltre 40.000 codici prodotto riesce a soddisfare tutte le richieste del Mercato globale, garantendo e consegnando apparecchi progettati per ogni ambiente abitato. La rete vendita, unita alle 15 sedi sparse per il mondo, ha permesso all'azienda di crescere e svilupparsi come una delle realtà della luce più conosciute e apprezzate dai professionisti. La nostra produzione spazia dall'entertainment all'architettuale, dall'hospitality all'office al retail, per approdare al residenziale.

# SOLUTIONS FOR EVERY DESIGN CATEGORY

With more than 40,000 product codes, Linea Light Group manages to meet any and all demands from the global Market, guaranteeing and delivering devices designed for any inhabited environment. The company's extensive sales network and 15 locations around the world have enabled it to grow and develop into one of the best known and most appreciated lighting companies among professionals. Our I-Lèd section ranges from entertainment to architectural, hospitality and retail to residential.

Damac Tower, UAE

## Architainment

Linea Light Group ha disegnato prodotti pensati per soddisfare al meglio anche le particolari richieste del mercato dell'Entertainment, riuscendo a far diventare la luce un materiale (elemento) scenografico e decorativo, oltre che funzionale. Grazie all'utilizzo di apparecchi personalizzati, e di protocolli gestionali dedicati, è diventata un punto di riferimento anche in questo segmento. Linea Light Group, con le sue soluzioni illuminotecniche, riesce a far emergere dettagli e geometrie, rendendo vividi e nitidi ambienti e colori, realizzando scenografie luminose che assecondano le architetture e creano emozione.

Linea Light Group has designed products conceived to best meet even the particular demands of the Entertainment market, successfully making light a dramatic and decorative material, in addition to being functional. Thanks to the use of personalised devices and dedicated management protocols, it has become a point of reference in this sector as well. Lighting solutions from I-Lèd enhance details and geometry, making environments and colours vivid and sharp.

Museum des Arts Décoratifs, France

## Art & Worship

Illuminare l'Arte e le Chiese è tra i progetti più stimolanti e articolati che Linea Light Group, con i suoi prodotti, si trova spesso ad affrontare. Per dare la giusta luce all'Arte è necessario avere degli apparecchi altamente performanti e sorgenti LED capaci esaltare forme e colori. Le nostre sorgenti sono state studiate per rispettare l'artista e il suo lavoro. Altrettanto complesso è illuminare i luoghi di culto soprattutto quelli affrescati, e seguirne l'iter liturgico. Il rispetto dell'ambiente sacro è indispensabile, e grazie ai nostri prodotti, invisibili, è possibile illuminare perfettamente e con discrezione.

I-Lèd has always accompanied Linea Light Group in its most challenging projects, such as those aimed at illuminating art and places of worship. In order to provide the right light for Art, high performance devices and LED sources capable of enhancing shapes and colours are needed. Our light sources are designed to correctly illuminate frescoes and works of art with full respect for the artist and his work. The great versatility of our lighting solutions makes it easy to design lighting for the various stages of the liturgy. Thanks to the near-invisibility of our products, sacred architecture can be illuminated effectively and discreetly.

Vida residence, UAE

## Architectural

I-Lèd, la sezione Architectural di Linea Light Group, mette a disposizione di ogni progettista prodotti con sorgenti e tecnologie capaci di soddisfare i clienti più esigenti. I-Lèd è una collezione completa di apparecchi tecnici per la progettazione illuminotecnica in ambito architettonico sia outdoor che indoor. Profili lineari, proiettori downlight e uplight con dimensioni sempre meno invasive e dalle prestazioni sempre più elevate, consentono di risolvere le situazioni più complesse e delicate. L'architettura, antica e contemporanea, trova con I-Lèd una nuova forma espressiva, esaltando i dettagli e la materia.

I-Lèd, a complete collection of technical luminaires for indoor and outdoor architectural lighting design, provides every designer with products with sources and technologies capable of satisfying even the most demanding customers. Linear profiles, downlights and uplights with ever smaller dimensions and high performance make it possible to solve the most complex and delicate situations. With I-Lèd, architecture finds a new expressive form, capable of enhancing the details and the materials.

Hard Rock Hotel, Spain

## Hospitality

Le nostre proposte illuminotecniche Hospitality trasformano hotel, resort e ristoranti in luoghi magici, dove vivere l'esperienza del cibo e del relax. Grazie a soluzioni invisibili, come la collezione Gypsum, la luce si integra perfettamente con l'architettura creando un unicum, in cui funzione e decorazione si uniscono con esattezza. Per questo settore particolare la sinergia e l'interazione tra i cataloghi I-Lèd e Decòrative è un elemento fondamentale. Architetti e lighting designer richiedono prodotti tecnici e decorativi dalle alte prestazioni, dai colori perfetti e dall'eccellente comfort visivo.

Our hospitality products transform hotels, resorts, and restaurants into magical places to experience haute cuisine, wellness, and relaxation.

Thanks to invisible luminaires that perfectly integrate their light with the architecture, Linea Light Group can create the right atmosphere in spaces by perfectly balancing light and shadow. I-Lèd offers lighting solutions that respect the specific needs of the different areas to be illuminated, offering products with perfect colours and excellent visual comfort.

NGC Medical HQ, Italy

## Office

L'ambiente Office contemporaneo è un mix funzionale tra open e closed space. I nostri prodotti, grazie alla loro grande versatilità, rispondono perfettamente a tutte le necessità espresse dai clienti. Elevato comfort visivo, uniformità dell'illuminamento e antiabbagliamento queste sono i punti di forza dei nostri apparecchi per il mondo ufficio. Sospensioni e incassi montano sorgenti studiate per evitare l'affaticamento della vista davanti ai terminali. L'ufficio e il luogo di lavoro in generale è il luogo dove passiamo più ore, è quindi necessario che la luce degli ambienti lavorativi sia la migliore possibile.

The modern Office environment is a functional mixture of open and closed spaces. Our I-Lèd products combine power, visual comfort, and glare control and, thanks to their great versatility, perfectly meet all the needs expressed by our customers.

Suspended, recessed and modular systems incorporate light sources designed to avoid eye strain in front of the video terminals to achieve comfortable lighting that enhances occupancy and productivity and stimulates creativity and operability.

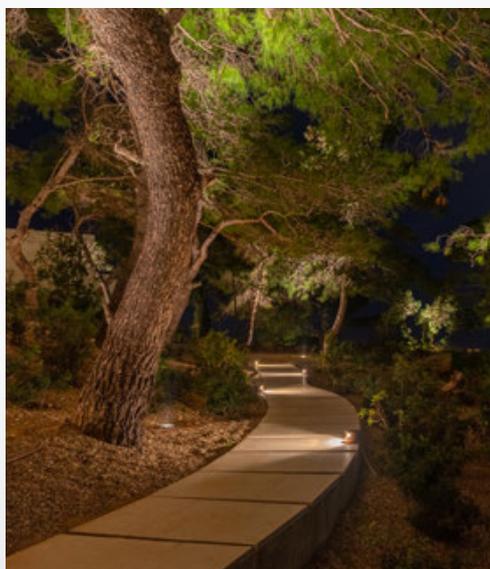

Timinis Store, Cyprus

## Retail

Ogni progetto di Retail ha una propria luce, questa deve saper dare risalto e consistenza ai prodotti esposti, di qualunque natura siano. Abbiamo studiato sorgenti LED con caratteristiche tecnologiche ideali per illuminare ogni spazio Retail, dal piccolo negozio al grande centro commerciale. I nostri tecnici, di volta in volta, affiancano i progettisti e risolvono le complessità e le richieste particolari che vengono presentate. Linea Light offre ad architetti e lighting designer prodotti sartoriali, modellabili secondo le diverse esigenze espositive. Questo permette al cliente finale di vivere l'esperienza dell'acquisto in maniera più consapevole e sicura.

Every retail project has its own light, which has to give prominence and consistency to the products on display. We have designed LED sources with technological characteristics that are ideal for lighting any space, from small shops to large shopping centres. Our engineers work alongside the designers on a case-by-case basis and solve the complexities and special requests presented to them. Linea Light Group offers architects and lighting designers tailored products that can be modelled based on the various display needs. This allows the end customer to enjoy the shopping experience in a more conscious and functional way.

Four Season Hotel, Greece

## Landscape

L'illuminazione del paesaggio, naturale o urbano, si è trasformata ed evoluta. Da puramente funzionale ha acquisito caratteri estetici rilevanti, vivere all'aperto è diventato sempre più piacevole e sicuro. La tecnologia LED ha ampliato i gradi di libertà del progettista e favorito una maggiore personalizzazione dei prodotti e degli spazi. Il LED ha permesso a Linea Light Group di costruire apparecchi performanti e ai professionisti di realizzare ogni loro idea di luce. Con una corretta illuminazione un giardino o una strada diventano luoghi da vivere anche di notte, in piena sicurezza e visibilità.

Landscape lighting, natural or urban, has transformed and evolved. From purely functional, it has taken on significant aesthetic characteristics. Outdoor living has become increasingly more enjoyable and safer. LED technology has expanded the designer's levels of freedom and favoured greater customisation of products and spaces. LED has allowed Linea Light Group to make high performance fixtures and it has allowed designers to bring all of their lighting ideas to life. With the right lighting, a garden or a street become places to experience even at night, in complete safety and visibility.

Private House, Italy

## Residential

Per tutte le realizzazioni Residenziali il catalogo di riferimento è Decòrative. Un'ampia collezione di lampade di design, divisa per tipologia e materiale, disegnate per essere le perfette luci di casa. A questo catalogo si affianca l'acquisizione dello storico brand Stilnovo. Questa è una collezione incentrata su ricerca e sperimentazione, capace di regalare prodotti innovativi e sorprendenti. Recentemente è stata implementata con nuovi prodotti dall'alto profilo estetico e tecnologico che ne completano l'offerta. Entrambe le collezioni impiegano sorgenti LED a luce calda, ideali per gli tutti gli ambienti domestici, indoor e outdoor, e tutti gli stili abitativi.

For all residential realisations, Decòrative is the catalogue of reference. This expansive collection of designer lights is categorised by type and material, designed to offer the perfect illumination for the home. The Decòrative catalogue is flanked by the products of the recently-acquired historic brand, Stilnovo. Focused on research and experimentation, the collection is able to offer innovative and surprising products. Recently, this has been achieved with new products bearing an elevated aesthetic and technological profile that complete the offer. Both collections utilise warm LED light sources, ideal for all domestic, indoor and outdoor environments, and for all styles of living.

Zeche Zollverein, Germany

## Industrial

La luce nei luoghi di lavoro e nelle città è un tema fondamentale per il benessere dell'uomo. Lavorare sotto una corretta illuminazione e con adeguato comfort visivo permette di migliorare l'efficienza, l'operatività e la produttività. Grazie alla protezione IP69, ai più recenti protocolli e a materiali ultratecnologici, come i nanopolimeri, Linea Light Group garantisce la massima resistenza e durata per ogni ambiente lavorativo. I nostri apparecchi possono essere impiegati anche nei settori industriali più estremi, Atex inclusi, in piena sicurezza e osservanza delle normative.

Light in the workplace and, more specifically, in industrial settings is a key issue for human well-being. Working in proper lighting and visual comfort improves efficiency, operability, and productivity. Thanks to IP69 protection, the latest protocols, and ultra-technological materials such as nano polymers, Linea Light Group offers robust and durable solutions. Our luminaires I-Lèd in fact can be used in even the most extreme industrial sectors, including Atex, in complete safety and compliance with regulations.

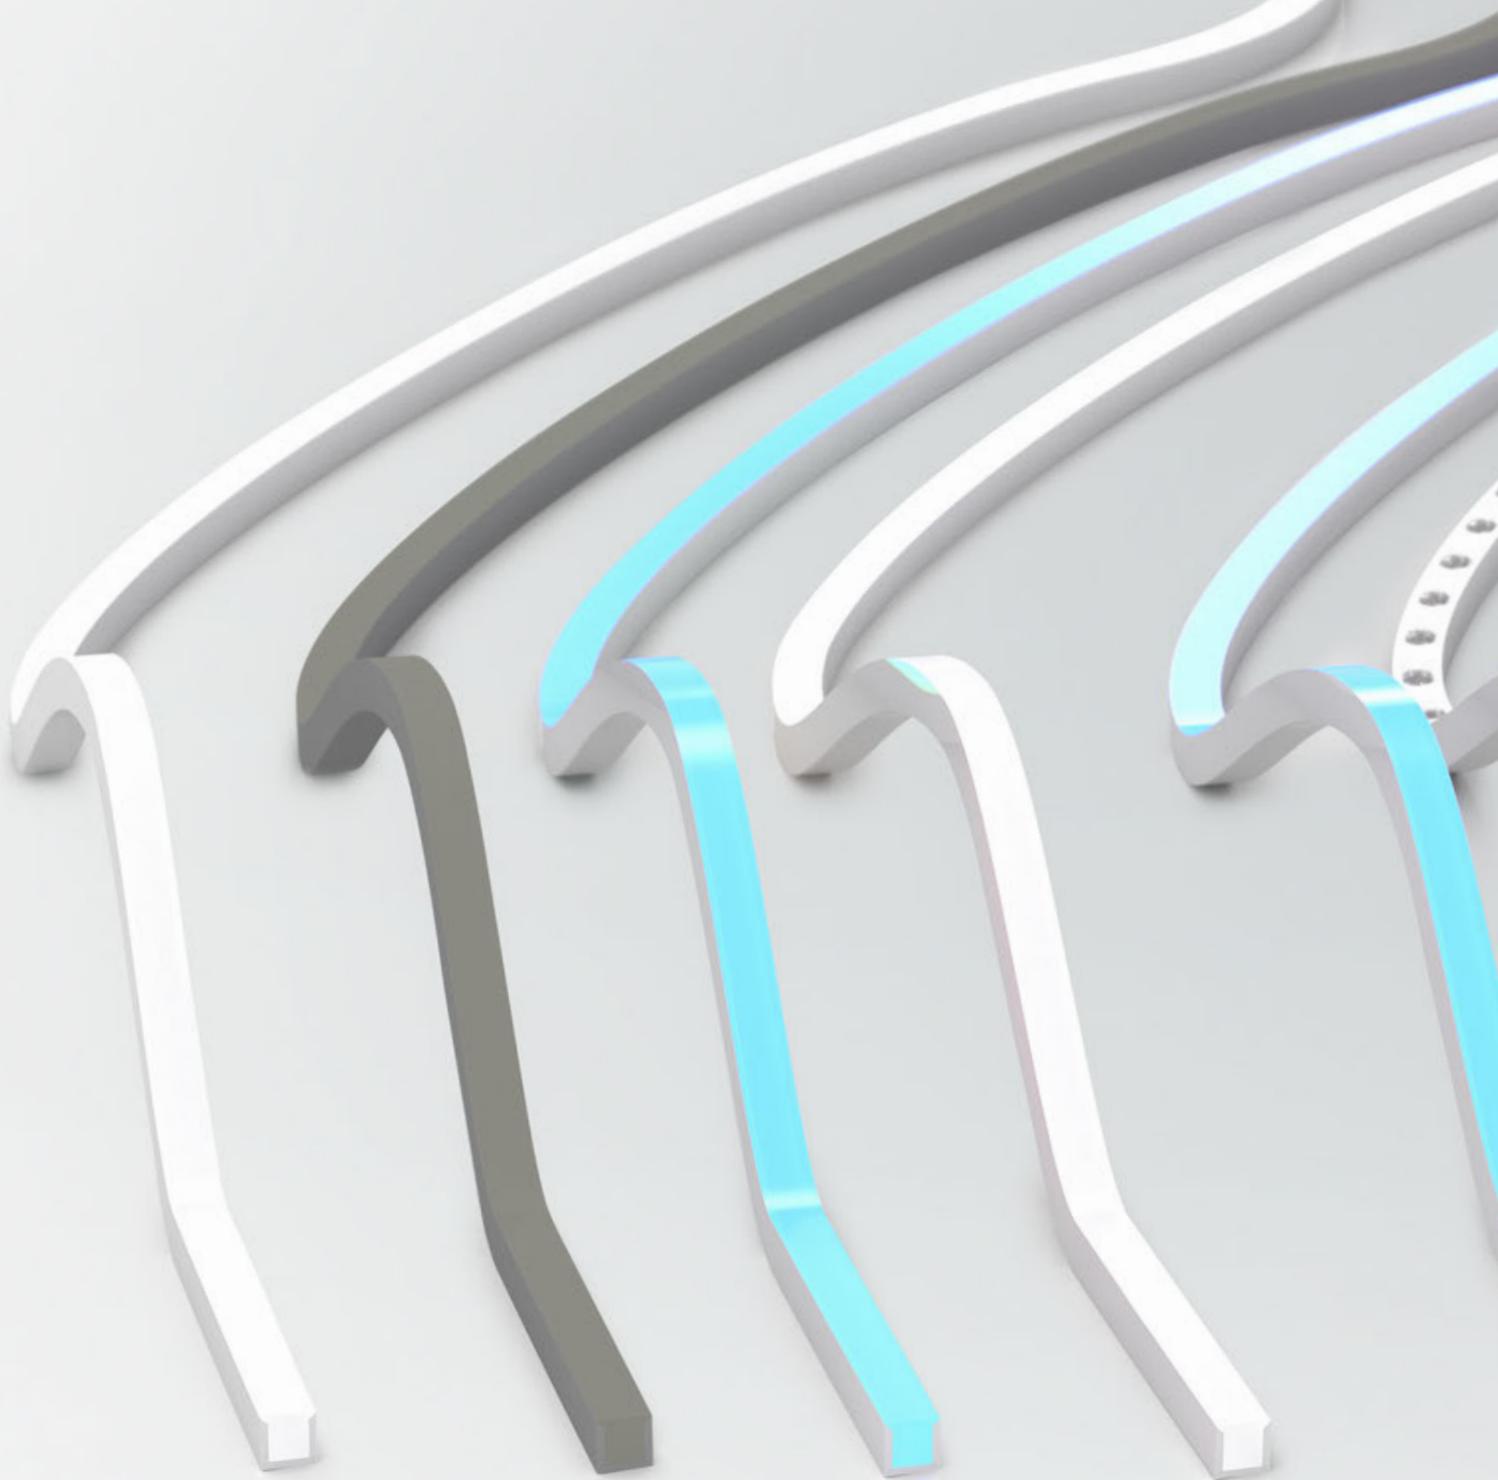

Capricorn Bridge, Germany

## Urban light

Illuminare la città in tutte le sue parti, con le giuste gerarchie, è anche un modo per tutelarle. Dalla strada al giardino fino al palazzo storico, ogni oggetto urbano che illuminiamo risponde a tutte le esigenze estetiche e normative richieste dal contesto. In Linea Light Group disegniamo e progettiamo ogni singolo dettaglio tecnologico, estetico ed elettronico dei nostri apparecchi, dalle schede elettroniche alle ottiche. In Linea Light Group concepiamo prodotti per durare nel tempo, mantenendo inalterate le prestazioni e la gestione tecnologica per soddisfare tutte le esigenze dei progettisti.

Lighting every corner of the cities in the right way and with the right hierarchy is also a way of protecting them. From the street to the garden to the historic building, every urban object we illuminate meets all the aesthetic and regulatory requirements demanded by its surroundings. At Linea Light Group, we design and engineer every single technological, aesthetic, and electronic detail of our luminaires I-Lèd, from the electronic boards to the optics. At Linea Light Group, we design products to last over time, maintaining performance and technological management to meet all designers' needs.

# FLESSIBILITÀ, PERFORMANCE E RESISTENZA

## Scopri RUBBER

Rubber riassume l'esperienza nei sistemi di illuminazione flessibili professionali. Oltre alle versioni 2D e 3D, Rubber è disponibile in versione IP69K ideale per installazioni subacquee o su aree ostili, dove sono previsti cicli di pulizia intensivi con getti d'acqua calda ad alta pressione.

Rubber non è soltanto flessibilità e resistenza, grazie allo sviluppo di uno sistema ottico affogato nel tecnopolimero infatti, rubber optic garantisce alte prestazioni di spinta diventando efficace anche per illuminazioni di facciate o cove lighting.

# FLEXIBILITY, PERFORMANCE AND RESISTANCE

## Discover RUBBER

Rubber summarises all our experience in professional flexible lighting systems. In addition to the 2D and 3D versions, Rubber is also available in the IP69K version, ideal for underwater installations or for installation in hostile areas, where intensive cleaning cycles with high pressure hot water jets are envisaged. Rubber is not only flexible and sturdy; in fact, thanks to the development of an optical system embedded in the technopolymer, rubber optic ensures high performance and becomes effective even for façade lighting or cove lighting.

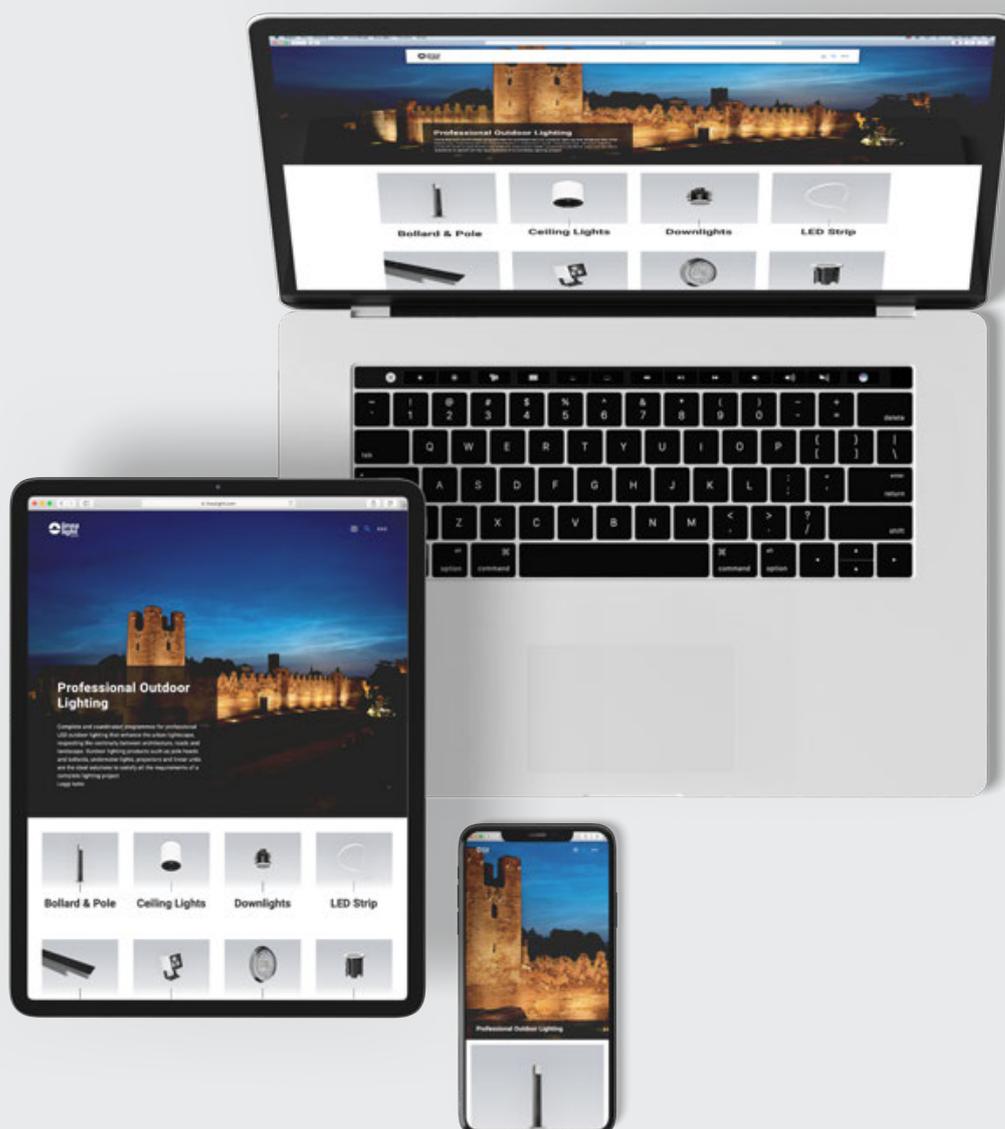

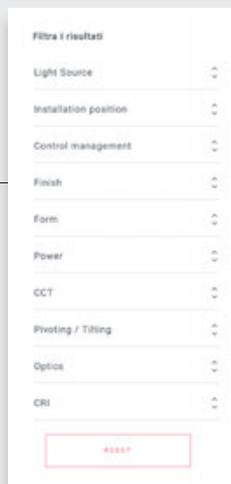

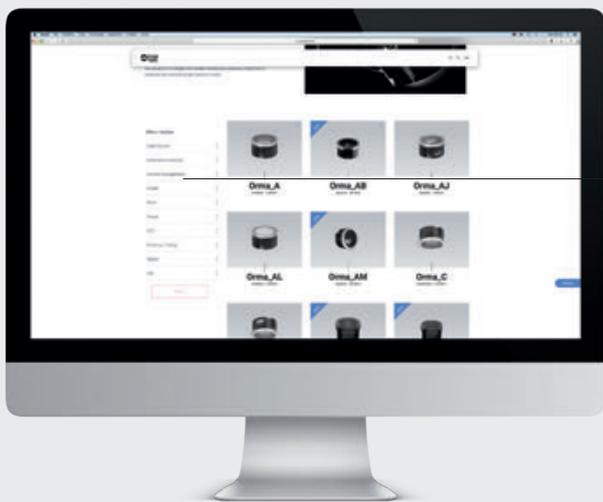

# TUTTE LE INFORMAZIONI A PORTATA DI UN CLIC!

Sempre e dovunque, il sito web è un contenitore di informazioni e novità su tutto il mondo Linea Light Group. Uno strumento sempre aggiornato dove è possibile trovare referenze di progetti, articoli formativi, ma anche sistemi di ricerca codice avanzati, oltre ad offrire soluzioni di "comparazione" per il confronto delle famiglie prodotto. Insomma tutto il necessario per lo sviluppo del tuo progetto!

## ALL INFORMATION JUST A CLICK AWAY

Always and everywhere, the website is a container of information and news on the whole world of Linea Light Group. A constantly updated tool where it is possible to find project references, training articles, but also advanced code search systems, as well as offering "comparison" solutions for comparing product families. In short, everything you need for the development of your project!

## Ricerca tramite filtri

In tutte le pagine di famiglia prodotto sono presenti filtri laterali che permettono di guidare la ricerca inserendo le caratteristiche (tipo di sorgente, posizioni installative, gestione del controllo, etc.). Utilizza questa funzione per giungere alla scelta di prodotto desiderato.

## Search using filters

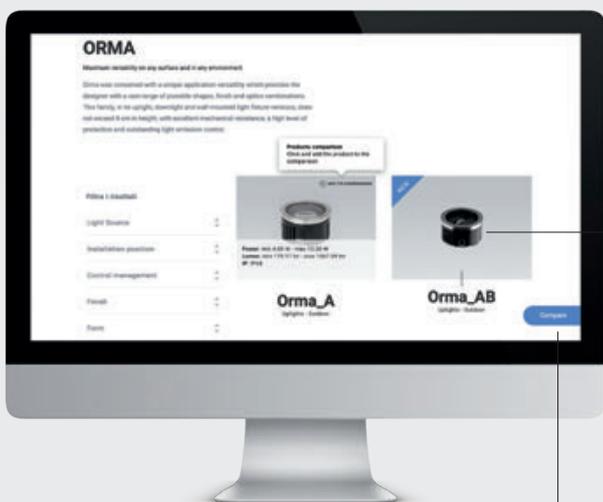

On all the product family pages, there are filters on the side that let you narrow down your search by entering the characteristics (type of source, installation position, control management, etc.). Use this function to arrive at the selection of the desired product.

## Se sei indeciso, compara i prodotti!

È possibile confrontare un massimo di 5 prodotti semplicemente posizionando il cursore del mouse sulle immagini prodotto e cliccando nell'icona in alto a destra "aggiungi al confronto". Una spunta azzurra segnalerà che i prodotti sono stati aggiunti al confronto.

## If you are undecided, compare the products!

You can compare up to 5 products by simply moving the cursor over the product images and clicking the "add to comparison" icon at the top right. A blue tick will indicate that the products have been added to the comparison.

Orma

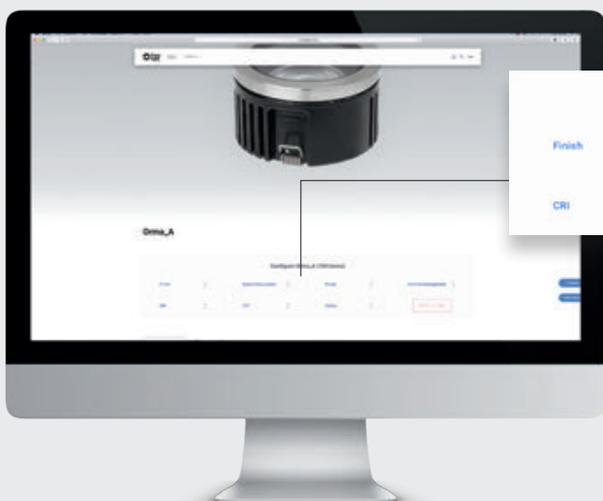

Orma\_AB

Il pulsante blu "Confronta" ancorato sulla destra dello schermo, una volta cliccato aprirà una pagina di confronto tra le famiglie di prodotto selezionate.

When the blue "Compare" button anchored on the right side of the screen is clicked, a page will open with a comparison of the selected product families.

## Configura il tuo codice

Utilizza il configuratore codice in ogni pagina prodotto. Questo strumento ti aiuterà a trovare il codice esatto in base alle tue esigenze.

## Configure your code

Use the code configurator found on every product page. This tool will help you find the exact code based on your needs.

### Accessories

60830 Shim (plasterboard 12,5 mm kit - 4 pcs) - Pag. 253

61270 Controcassa / Recessed casing - Pag. 254

Per installazione su muratura è necessario acquistare la controcassa assieme al corpo lampada.  
For wall installation it is necessary to purchase the casing along with the lamp body.

## Vos

pag. 14

### Tilt adjustable

Le famiglie Vos\_RJ e Vos\_QJ sono caratterizzate da una mobilità di 360° sull'asse orizzontale e un'inclinazione di 35° sull'asse verticale.

### Vano ottico schermato

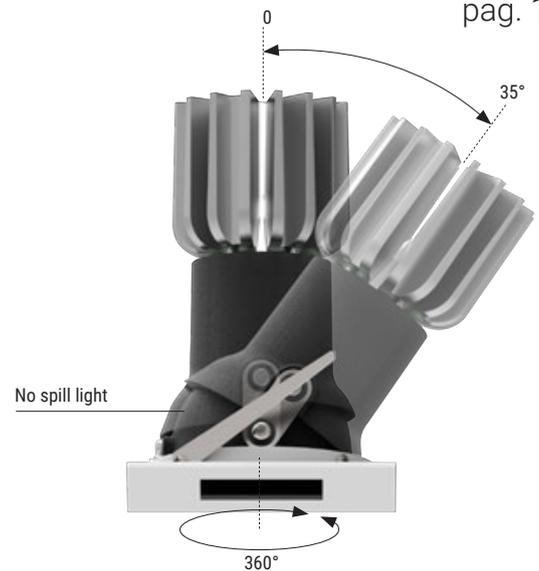

La struttura del downlight è stata progettata per evitare dispersioni di luce posteriori e per schermare l'interno del controsoffitto.

### Tilting version

The Vos\_RJ and Vos\_QJ range of products come with a 360° mobility on the horizontal axis and a 35° tilt on the vertical axis.

### Shielding of the optics compartment

The downlight structure was designed to avoid rear light dispersion and for shielding the internal of the dropped ceiling.

## Warp

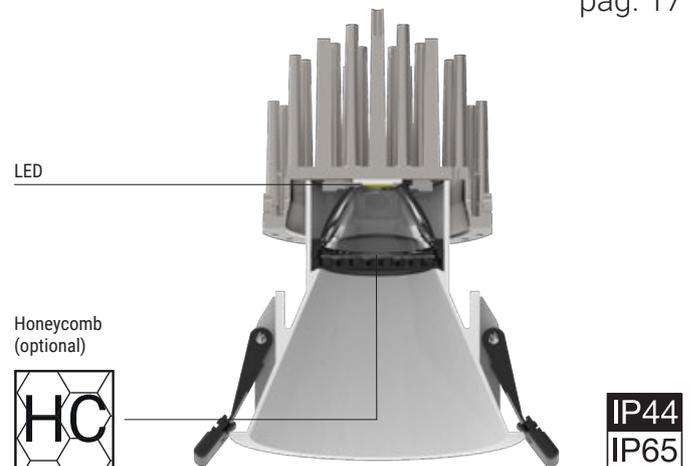

pag. 17

### Comfort visivo

Il filtro a nido d'ape integrato nelle versioni Honeycomb permette di schermare ulteriormente la sorgente. Le microcelle esagonali che compongono la griglia contribuiscono a schermare il fascio luminoso secondario, offrendo una riduzione pressoché totale dell'abbagliamento.

### Visual comfort

The honeycomb-like filter integrated in the Honeycomb versions allows to shield the source further. The hexagonal microcells forming the grid contribute towards shielding the secondary light beam, thus almost eliminating the glaring altogether.

## Epitax

pag. 20

### Trimless

I downlight della famiglia Epitax possono essere incassati a filo oppure estratti in posizione semi-recessa anche a installazione già effettuata: questa possibilità semplifica di molto l'operazione di estrazione e rende Epitax un prodotto versatile e di facile configurazione.

### Sorgente arretrata

La sorgente luminosa particolarmente recessa permette di ottenere un'emissione definita, riducendo l'incidenza del fascio luminoso secondario e riducendo drasticamente l'abbagliamento.

### Trimless

The Epitax family downlights can be flush mounted or extracted into a semi-recessed position even after installation: this possibility greatly simplifies the extraction operation and makes Epitax a product that is versatile and easy to configure.

### Receded source

Being particularly recessed, this light source allows obtaining a defined emission, hence reducing the impact of the secondary light beam while drastically reducing glare at the same time.

IP44  
IP65

## Unico nel suo genere

Grazie ai 9 millimetri di sorgente e alla sorprendente diffusione controllata in tre varianti ottiche da 10°, 30° e 60° Giotto offre una soluzione innovativa nel campo dell'illuminazione, senza eguali per rapporto tra l'esiguo diametro del foro d'uscita del fascio e l'altissima efficienza illuminotecnica.

## In a class of its own

Due to the 9 millimetres of source and the surprising controlled diffusion in three 10°, 30° and 60° optical variants, Giotto ushers an innovative solution in the lighting industry, unrivalled for its ratio between the slim diameter of the beam output hole and the super efficient lighting technique.

Scale 1:1

9 mm

# Cell

## Micro-ottiche CELL

La particolare maglia quadrata a faccette convesse che caratterizza la superficie dei micro riflettori è in grado di controllare ogni raggio di luce definendo un'emissione disponibile in 15°, 30° e 45°.

## Micro-Optics CELL

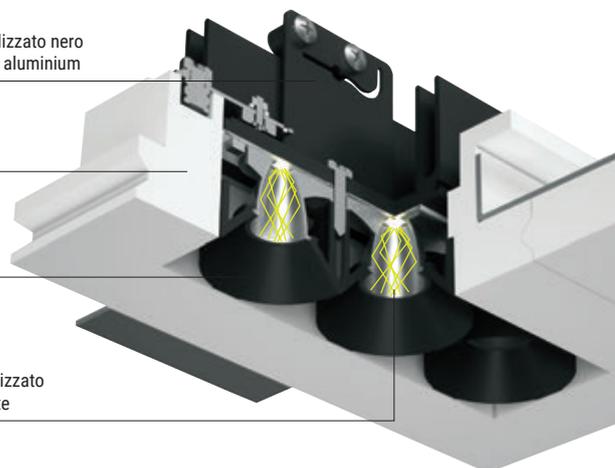

The particular wire mesh with convex faces that characterises the surface of the micro reflectors is capable of controlling each light beam defining an emission available in 15°, 30° and 45°.

Dissipatore in alluminio estruso anodizzato nero  
Heat sink in extruded black anodized aluminium

Frame in gesso (versione Gypsum)  
Frame in plaster (Gypsum version)

Celle cut-off in policarbonato  
Cut-off cells in polycarbonate

Micro-ottiche in policarbonato metallizzato  
Micro-optics in metallic polycarbonate

# Optus\_EX

## Versione basculante estraibile

I downlight Optus\_EX sono caratterizzati da una mobilità di 350° sull'asse orizzontale e un'inclinazione sull'asse verticale che permette un rientro del faretto di max 20° oppure un'estrazione fino a 45°.

## Ingombro ridotto

Optus\_EX è composto da un unico blocco in alluminio pressofuso di dimensioni estremamente compatte, alto appena 5 cm. Questa particolare conformazione consente l'installazione su cartongessi e superfici con altezza ridotta e scarso spazio di manovra.

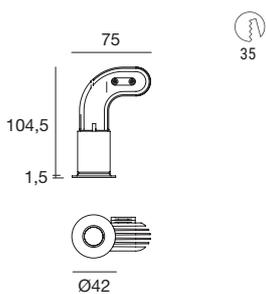

## Extractable tilting version

Optus\_EX downlights come with a 350° mobility on the horizontal axis and an inclination on the vertical axis that allows a max 20° recess or an up to 45° extraction of the spotlight.

## Small size

Optus\_EX comes with an extremely compact-size die cast aluminium single block, just 5 cm high. This particular shape allows installation in plasterboards as well as low and narrow surfaces.

**Pinhole**

Il vano ottico sfrutta il concetto della camera pin-hole, garantendo il controllo della riflettanza. La sorgente è disposta su un piano arretrato rispetto all'apertura del vano: i fotoni che compongono il fascio luminoso primario fuoriescono senza incontrare ostacoli; i fotoni più esterni, invece, rimbalzano all'interno del vano, verniciato di nero per ottenere il massimo grado di assorbimento, affievolendosi man mano fino ad esaurirsi.

**Pinhole**

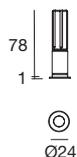

The optics compartment applies the pin-hole camera concept, thus guaranteeing reflectance control. The source is positioned on a receded plane with respect to the opening of the compartment: the photons forming the primary light beam project without being hindered; on the contrary, the outermost photons bounce in the compartment, painted black to obtain maximum degree of absorption, progressively dimming up to complete exhaustion.

### Cross Optics Technology™

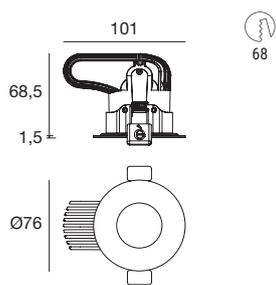

Questa tecnologia brevettata, sfrutta il posizionamento di due lenti convesse poste l'una di fronte all'altra: la prima raccoglie la luce sulla superficie della seconda, convogliandola in un piccolo punto per definizione privo di imperfezioni; la seconda lente riapre il fascio, ora privato della componente secondaria, creando un cerchio di luce nitida e pulita sulla superficie illuminata.

### Cross Optics Technology™

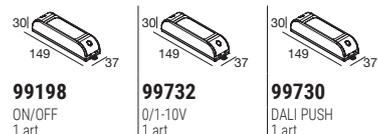

This patented technology uses the positioning of two convex lenses placed across from one another: the first gathers the light on the surface of the second, channelling it into a small point for perfect definition. The second lens reopens the beam, now deprived of the secondary component, creating a crisp and clean ring of light on the lit surface.

### Ingombro minimo

L'adozione di un dissipatore posteriore curvato riduce la profondità di incasso e consente ai downlight della famiglia Loro (escluse le versioni da 25 W) di adattarsi all'installazione su controsoffitti di altezza inferiore ai 10 cm.

#### UGR<19

Il gruppo ottico, composto di riflettore cromatizzato e diffusore in policarbonato trasparente, garantisce un'ottimo controllo della riflettanza ed un indice UGR inferiore a 19, ovvero il valore-soglia per la corretta illuminazione di uffici e ambienti con videoterminali (norma UNI-EN 12464-1)."

### Minimal size

Using a curved rear dissipator reduces the recess depth and allows the Loro range of products (except for the 25 W) versions to adapt to the installation on dropped ceilings with height lesser than 10 cm.

#### UGR<19

The optics group, consisting of a chrome-plated reflector and a transparent polycarbonate diffuser offers an optimal reflectance control and a UGR index below 19, i.e. the threshold value for the correct lighting of offices and environments with video terminals (UNI-EN 12464-1 standard).

### IP65 O.C.

Il gruppo ottico garantisce un indice di protezione frontale IP65, ovvero totale protezione contro l'ingresso di polvere e particelle estremamente piccole, nonché contro spruzzi e getti d'acqua. ATTENZIONE: il valore si riferisce unicamente al comparto ottico e NON al corpo lampada (indice di protezione IP44).

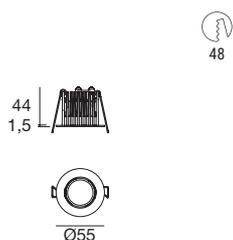

### IP65 O.C.

The optics gr group offers an IP65 front index of protection, i.e. full protection against entry of dust and extremely fine particles, as well as sprays and water jets. WARNING: the value exclusively refers to the optics section and NOT the lamp body (IP44 index of protection).

# Environment Care Lighting

In collaboration with

Luce utile che tutela la salute e il benessere quotidiano, in ogni ambiente, in ogni momento.

Useful light that protects health and well-being - in any environment, at any time.

Luci ad alta resa cromatica (CRI 90)  
High colour rendering (CRI 90)

Ambienti illuminati e sanificati  
Illuminated and sanitised environments

Risparmio energetico  
Energy saving

Fino a 70% dell'abbattimento della carica batterica  
Up to 70% reduction in bacterial load

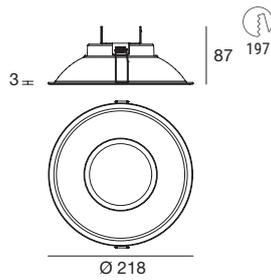

Contrasta l'insorgere delle infezioni  
Counteracts the onset of infections

## Luoghi di utilizzo / Places of use

**Installazione rapida**

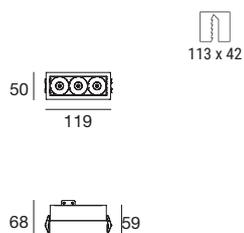

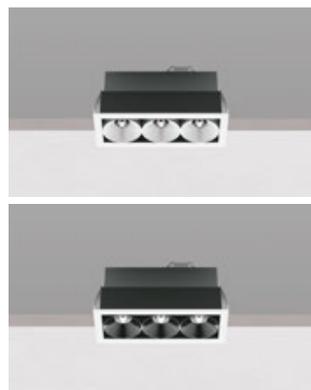

La versione Gypsum\_Cell presenta una controcassa con cornice in gesso, pensata per installazione su controsoffitto. Il sistema di aggancio rapido a calamita permette di posizionare facilmente le unità luminose che possono essere verniciate, per un'integrazione totale con l'architettura.

**Quick installation**

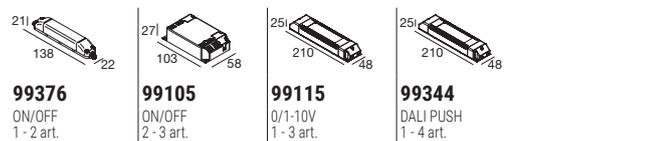

The Gypsum\_Cell comes with a recessed casing with plaster frame, conceived for installation on dropped ceiling. The magnet-equipped quick coupling system allows to easily position the light units that can be painted, for full integration with the architecture.

<sup>1</sup> data are referred to the source's luminous flux

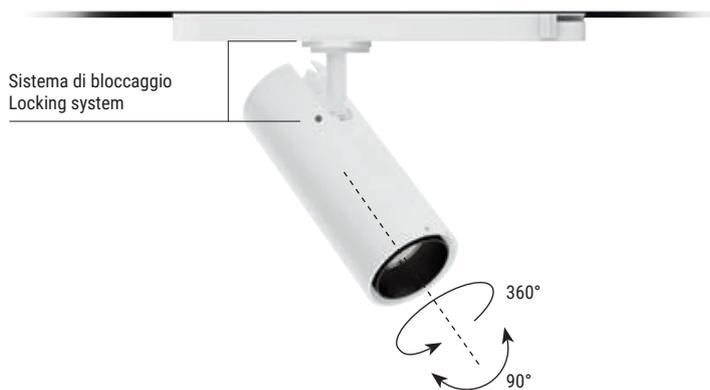

<sup>2</sup> ADJ = Basculante / Adjustable

**Proiettore dinamico**

Tutti proiettori Pound sono caratterizzate da una mobilità di 360° sull'asse orizzontale e un'inclinazione di 90° (+45° / -45°) sull'asse verticale.

**Conformazione dello snodo**

Lo snodo è studiato per diventare un tutt'uno con la silhouette del proiettore quando questo è in posizione zenitale, grazie alla fessura presente nel corpo lampada destinata ad ospitare il braccio di sostegno, celandolo alla vista.

**Dynamic projector**

The Pound projectors come with a 360° mobility on the horizontal axis and a 90° (+45° / -45°) tilt on the vertical axis.

**Joint design**

The joint is conceived to form a single body with the profile of the projector when the latter is in the zenith position, thanks to the slot present in the lamp body designated to house the support arm, thus concealing it.

**Optus\_T**

Optus\_T, a dispetto delle dimensioni ultracompatte, racchiude diversi plus tecnologici, primo fra tutti l'adozioni di lenti diversificate a seconda dei modelli: ottica TIR nelle versioni più ridotte da 18 W, a parabola nei proiettori da 34 W. In secondo luogo, l'attacco nelle versioni da 18 W è progettato per scomparire nel binario trifase, un accorgimento che permette di ridurre ulteriormente gli spazi. Non solo tecnologia: il design compatto e minimale rende Optus\_T una soluzione versatile, adatta a svariati contesti, dal retail al museale.

Despite its ultracompact dimensions, Optus\_T comes with several technological advantages, above all the adoption of lenses diversified according to the models: TIR optics in the smallest 18 W versions, parabolic in the 34 W projectors. Secondly, in the 18 W versions the coupling is designed to be concealed in the three-phase track, a solution that allows reducing spaces further. Much more than technology: thanks to its compact and minimal design, Optus\_T offers a versatile solution, suitable for various contexts, ranging from retail to museum.

**Navata**

**Braccio a catena snodabile. Doppia rotazione su basetta e corpo luce.**

Il sistema Navata consente un'ampia gamma di movimenti per un'illuminazione il più possibile versatile, capace di superare i limiti dovuti ad installazioni in spazi angusti o incavati. Il braccio a catena è altamente snodabile, consentendo di ripiegare letteralmente il proiettore su sé stesso oppure di distenderlo raggiungendo una distanza considerevole rispetto alla basetta. La doppia rotazione su basetta e corpo luce permette di orientare il proiettore a 360° e ottenere il posizionamento desiderato.

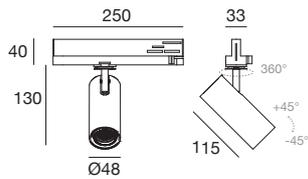

**Articulated chain arm. Double rotation on base and light body.**

The Navata system allows a vast range of movements for lighting that is as versatile as possible, able to overcome the limitations due to installations in narrow or recessed spaces. The chain arm is highly flexible, allowing the projector to be literally folded back on itself or to be stretched out, reaching a considerable distance with respect to the base. The double rotation on base and light body allows the projector to be directed 360° to achieve the desired positioning.

# Track system configuration

## Continuità della messa a terra

Per una corretta installazione di tutti gli accessori che concorrono alla composizione di un impianto di binario trifase, è importante la continuità della linea di messa a terra tra ogni elemento. Come evidenziato dalla sezione del binario raffigurata a lato, la posizione della linea di messa a terra (in rosso) è asimmetrica rispetto all'asse centrale del binario; in base a questa differenza strutturale è possibile distinguere la parte destra (che include la linea di messa a terra) che vincola l'inserimento di tutti gli accessori. Il posizionamento del conduttore di terra, deve essere consequenziale tra accessorio e struttura del binario elettrificato.

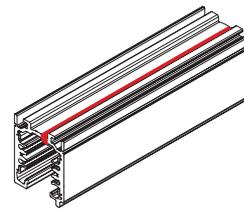

## Configurazione

Per una corretta progettazione, suggeriamo di comporre la struttura con vista in pianta dall'alto, come rappresentato del disegno seguente:

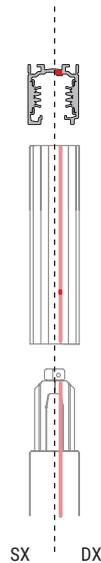

## Earthing continuity

For proper earthing of all accessories that contribute to form a three-phase track system, the continuity of the earthing line between each element is crucial. As shown by the track section herebeside, the position of the earthing line (red) is asymmetric to the central axis of the track; based on this structural difference one can distinguish the right part (including the earthing line) which binds the introduction of all accessories. The positioning of the earth conductor, must be consequential between the accessory and the electrified track structure.

Vista assonometrica  
Axonometric view

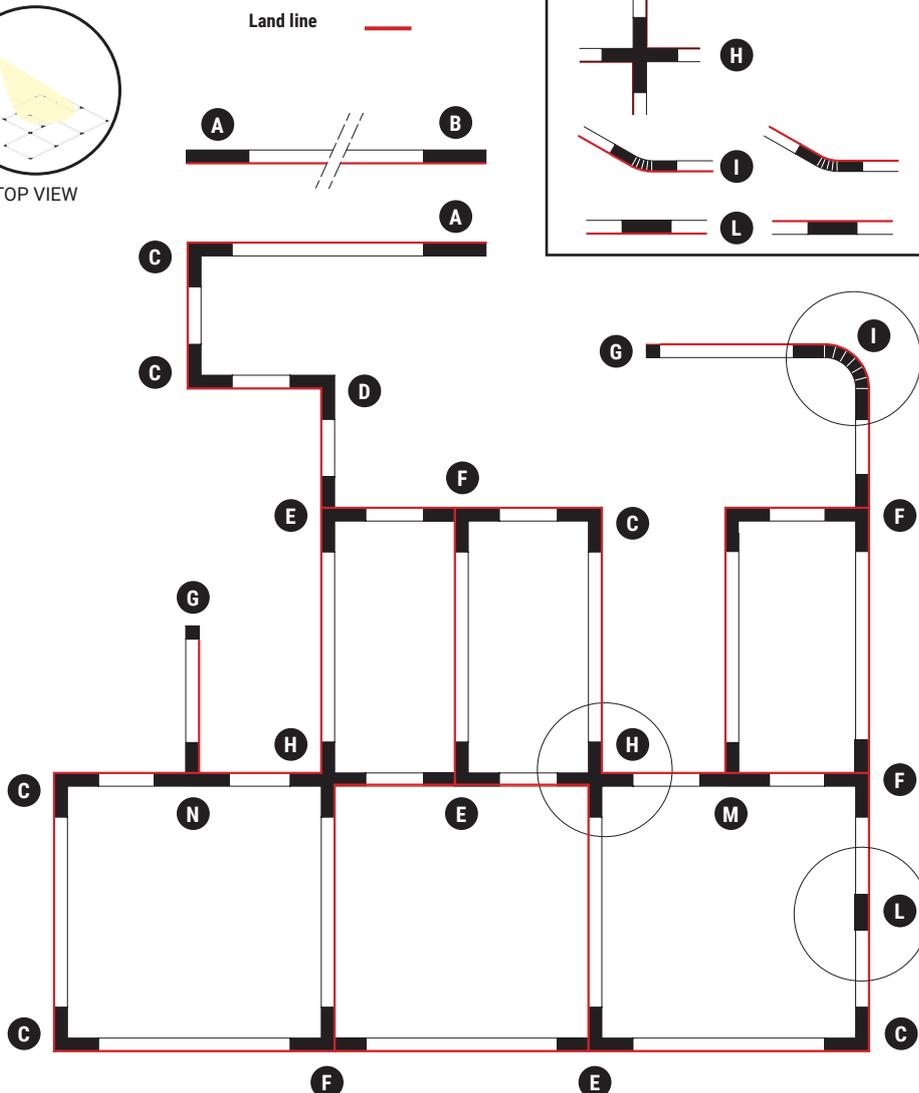

Vista in pianta  
Plan view

## Configuration

For a correct design, we suggest to create the structure with top plan view, as shown in the drawing below:

## Vista in pianta dall'alto Plan view from above

Gli accessori "H", "I" ed "L" possono essere utilizzati in entrambi i versi.  
The "H", "I" and "L" accessories can be used in both directions.

<sup>1</sup> data are referred to the source's luminous flux

## Tour

pag. 66

Tour è composto da un un profilo in alluminio estruso che per le sue dimensioni quasi impercettibili lo rende unico nel suo genere. Grazie alle sei finiture di pregio Tour diventa un elemento di sintesi ragionata che si presta ad ogni soluzione architettuale.

Tour comes with an extruded aluminium profile which places it in a class of its own due to its almost imperceptible size. Due to its prestigious six finishes, Tour becomes a reasoned all-around element suitable for any architectural solution.

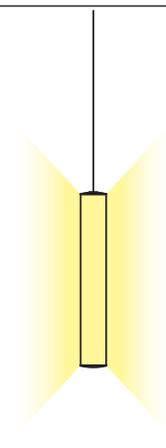

## TU\_V

pag. 70

Lampade a sospensione perfette sia per installazioni singole che per suggestive cascate luminose, combinando le varie lunghezze. Diffusore in PMMA, tappi in alluminio verniciati in bianco gofrato.

Suspension lamps suitable both for single installations and for suggestive luminous cascades, combining various lengths. PMMA diffuser, aluminum caps painted in embossed white.

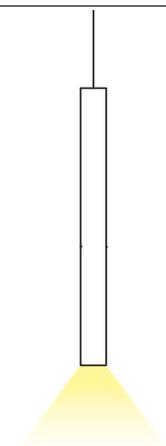

## Baton

pag. 70

Sospensione cilindrica in alluminio dall'estetica minimale, con lente integrata e sorgente arretrata per un'illuminazione confortevole. Perfetta per illuminare tavoli e banconi bar.

Cylindrical suspension in aluminum with minimal aesthetics, integrated lens and recessed light source for a comfortable light. Perfect for illuminating tables and bar counters.

Finiture / Finishing

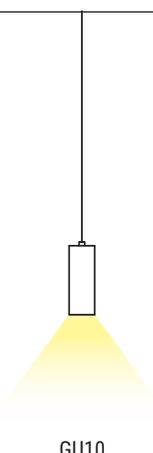

## Birba

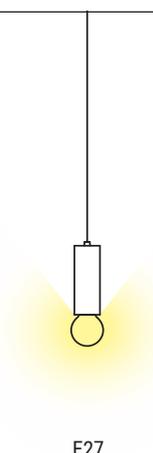

pag. 71

Disponibile con attacco GU10 oppure E27, questa sospensione tubolare presenta tre diverse lunghezze e finiture ricercate come alluminio lucido, alluminio verniciato bianco oppure vero ottone. Lampadina non inclusa.

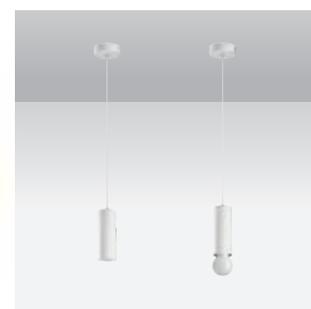

Available with GU10 or E27 fitting, this tubular suspension has three different lengths and refined finishes such as polished aluminum, white painted aluminum or real brass. Bulb not included.

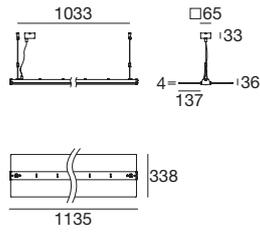

GU10

E27

### Rosone a 3 punti / 3-point coupling ceiling rose

#### Tour\_PD monoemissione / Tour\_PD one-side emission

Ø 740 mm - Ø 910 mm - Ø 1430 mm

#### ON/OFF Max 75 W Suitable for

**64578**  White 64570 - 64571 - 64572

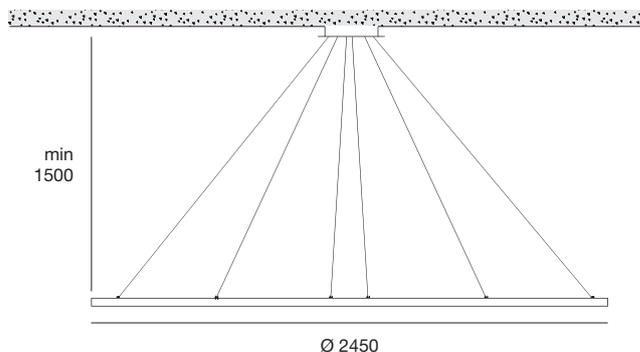

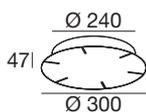

**65142**  Black 65112 - 65116 - 65120

#### DALI 0/1-10 V Max 75 W Suitable for

**64586**  White 64570 - 64571 - 64572

**65143**  Black 65112 - 65116 - 65120

### Rosone a 6 punti / 6-point coupling ceiling rose

#### Tour\_PD monoemissione / Tour\_PD one-side emission

Ø 2450 mm

#### ON/OFF Max 150 W Suitable for

**64580**  White 64573

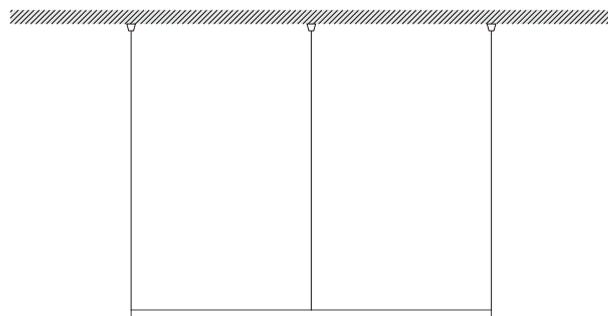

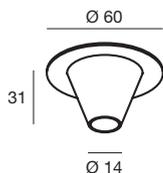

**65152**  Black 65124

#### DALI Max 150 W Suitable for

**64588**  White 64573

**65153**  Black 65124

### Kit fissaggio Tour\_PD (3 pz) / 3 fixing kit Tour\_PD (3 pcs)

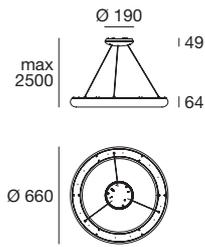

**64575**  White

**64670**  Black

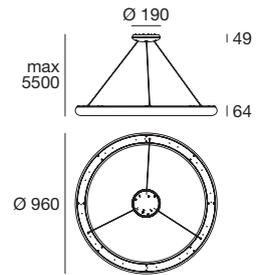

Per la versione Ø 2450 servono 2x kit di fissaggio da 3 coni cad.  
For version Ø 2450 requires 2x fixing kit with 3 cones each.

## Dettagli costruttivi

Corpo lampada extra sottile, con appena 9 mm di spessore. Grazie alla particolare microprismatura del diffusore, l'illuminazione risulta brillante e confortevole, con elevato indice di resa cromatica CRI90. L'abbagliamento è ridotto, valori di UGR<19.

## Construction details

Extra thin lamp body, just 9 mm thick. Thanks to the diffuser's particular microprisms, lighting is bright and comfortable with a high chromatic yield index, CRI90. Glare is reduced, UGR<19.

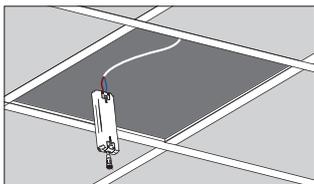

## Installazione rapida

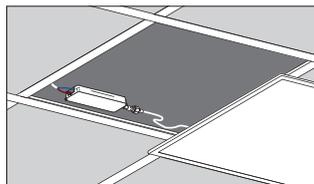

Corpo lampada in alluminio verniciato bianco, dall'ingombro minimo e pratico nell'installazione. Il Driver è incluso nell'articolo con cavo e connettore rapido "Easy Plug". Collegamento semplice in due rapidi punti.

## Quick installation

Lamp body in white painted aluminium with minimum bulk and practical installation. The Driver is included in the item with cable and "Easy Plug" quick connector. Simple connection in two quick points.

1. Collegamento del Driver alla rete elettrica.  
1. Connection of the Driver to the electrical mains.

2. Collegamento Driver-Emy mediante connettore rapido "Easy Plug".  
2. Driver-Emy connection using quick connector "Easy Plug".

Installazione in appoggio sul telaio del controsoffitto modulare.  
Surface installation on the modular false ceiling frame.

## Plafone o sospensione

Disponibile su richiesta accessorio cornice per installazione a plafone, mentre per installazione a sospensione è disponibile il kit con appositi agganci e cavi.

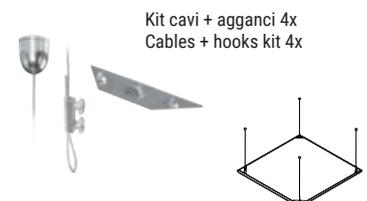

## Surface or hanging installation

Frame accessory available on request for surface installation, whereas for hanging installation, the specific kit is available with appropriate hooks and cables.

### Plafone Surface Installation

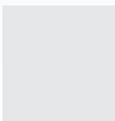

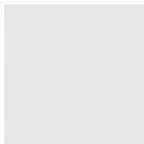

### Sospensione Hanging Installation

Corpo in alluminio verniciato bianco, diffusore in polimetilmetacrilato. Disponibile nelle forme tonda, quadrata o rettangolare ed in varie misure, Tara racchiude le performance della tecnologia LED in un corpo dall'estetica semplice e curata. La gamma include modelli ON/OFF e versioni dimmerabili DIMMABLE, MAXI e MEGA.

White painted aluminum body and polymethylmethacrylate diffuser. Available in round, square or rectangular shape and in various sizes, Tara embodies the performance of the LED technology in a body with a simple and refined aesthetic. The range includes ON/OFF models and dimmable versions DIMMABLE, MAXI and MEGA.

# Igloo

A parete o a soffitto, gli articoli Igloo\_S sono perfetti sia per installazioni singole che per composizioni più elaborate come linee continue, modulari a L, a T oppure complesse a piacere. La gamma comprende tre diverse finiture e la variante Igloo\_W (solo applique), profonda appena 5 cm.

Ceiling/wall mounted, Igloo\_S fixtures are perfect both for single installations and for more elaborate compositions such as continuous lines, modular L-shaped, T-shaped or complex shapes at will. The range includes three different finishes and the Igloo\_W variant (wall light only), just 5 cm deep.

Configurazione  
Configuration

# Box

Spessa meno di 4 cm, Box\_W è disponibile nelle versioni mono o bi-emissione, a scelta tra quattro diverse lunghezze e tre temperature colore: 2700K, 3000K e 4000K.

Less than 4 cm thick, Box\_W is available in mono or bi-emission, with a choice of four different lengths and three color temperatures: 2700K, 3000K and 4000K.

**Si può sempre cambiare**

Profili luminosi e sospensioni lineari con emissione diffusa oppure ad UGR controllato grazie ad apposite celle darklight, faretti orientabili con tre diverse ottiche e sospensioni spot. La gamma INK comprende tanti articoli luminosi con sistema di aggancio ultrarapido al cavo di gomma: basta scegliere la posizione preferita, fissare l'apparecchio tramite leggera pressione e avvitare i grani di sicurezza con l'apposita brugola in dotazione. Il cavo funge da conduttore sicuro ed affidabile, non necessita di protezioni o accorgimenti installativi particolari e permette la massima libertà di posizionamento. Cambiare è facilissimo: basta svitare le brugole, estrarre l'articolo e spostarlo a piacimento!

**You can always change**

Light profiles and linear suspensions with diffused emission or UGR controlled by special darklight cells, adjustable spotlights with three different optics and spot suspensions. The INK range includes many luminous articles with an ultra-fast coupling system to the rubber cable: just choose the preferred position, fix the luminaire by light pressure and screw in the safety dowels with the special Allen key supplied. The cable acts as a safe and reliable conductor does not require any special protection or installation measures and allows maximum freedom of positioning. Changing is very easy: just unscrew the hex screws, remove the item and move it as you like!

Una volta disposti gli estrusi, posizionare le sezioni di cavo opportunamente tagliate. L'aggancio del cavo di gomma avviene tramite incastro della parte cava nell'estruso, che funge così da binario. Non servono accessori né sistemi di fissaggio. Con la stessa facilità con la quale si inserisce, il cavo si può togliere.

Once the extrusions have been arranged, position the cable sections properly cut. The rubber cable is then connected by inserting the hollow part into the extruded part, which acts as a rail. No accessories or fixing systems required. The cable can be removed just as easily as it can be inserted.

Inserire la strip nell'alloggiamento premendo col pollice e seguendo mano il cavo in tutta la sua lunghezza.

Then insert the strip into the housing by pressing with your thumb and following the entire length of the cable as you go along.

Il collegamento avviene tramite inserimento del raccordo: spingere il pezzo di giunzione assicurandosi che gli innesti a pin facciano presa su entrambe le estremità e si conficchino correttamente nella gomma.

The connection is made by inserting the fitting: push the joint piece making sure that the pin plugs grip at both ends and fit correctly into the rubber.

La tesata è ruotabile di 360° (procedendo a step intermedi di 90°). Per farlo è necessario scoprire la staffa di fissaggio togliendo la copertura, ruotare il cavo e le estremità a cui è agganciato e richiudere la copertura.

The stretching can be rotated by 360° (proceeding in intermediate steps of 90°). To do this, uncover the fixing bracket by removing the cover, rotate the cable and the ends to which it is attached and, once the desired inclination has been reached, close the cover.

Installare a parete l'estruso di partenza in modo che l'estremità sia in corrispondenza di uno dei due vani, posizionati rispettivamente sul lato lungo e corto della base rettangolare. È possibile sceglierne soltanto uno: pertanto, prima di procedere, è necessario aver definito con chiarezza il percorso che dovrà fare il sistema.

Install the starting extrudate on the wall so that the end is in correspondence of one of the two compartments, positioned respectively on the long and short sides of the rectangular base. It is possible to choose only one: therefore, before proceeding, it is necessary to have clearly defined the path that the system will have to cover.

Una volta completato il percorso, tagliare il cavo della lunghezza desiderata e inserirlo in corrispondenza della guida, procedendo con il cablaggio come indicato nel foglio di istruzioni.

When the route is complete, cut the cable to the desired length and insert it into the guide, proceeding with the wiring as indicated in the instruction sheet.

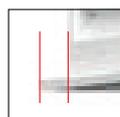

## Design e integrazione

Attorno al concetto di integrazione ruota il design della gamma Rollip a incasso. Disponibile sia in versione modulare che nelle configurazioni complete nelle varianti da 35 e 70mm di larghezza, Rollip affianca al meglio le esigenze del progettista. La farfalla di montaggio garantisce un'installazione veloce e sicura su cartongessi, da 22 a 6 mm per le Rollip35, da 30 a 6 mm per le Rollip70: questo sistema permette un fissaggio permanente e sicuro del prodotto con possibilità di rimozione facile, senza provocare danni al cartongesso.

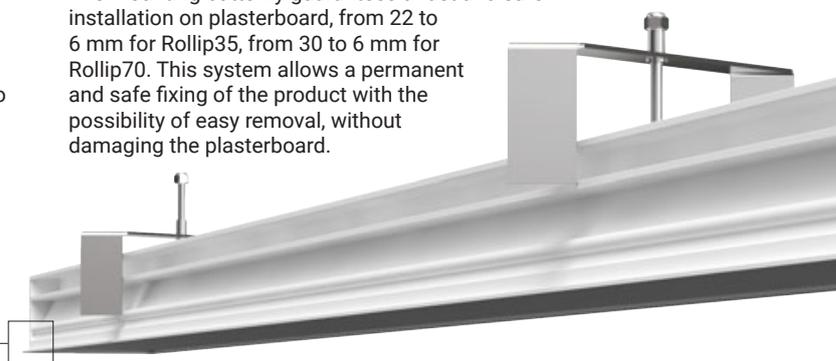

## Design and integration

The design of the Rollip recessed range revolves around the integration concept. Available both in a modular version and in complete configurations in 35 and 70mm wide variants, Rollip is the best complement to the designer's needs. The mounting butterfly guarantees a fast and safe installation on plasterboard, from 22 to 6 mm for Rollip35, from 30 to 6 mm for Rollip70. This system allows a permanent and safe fixing of the product with the possibility of easy removal, without damaging the plasterboard.

IP40  
IP54

5 mm di battuta  
5 mm frame

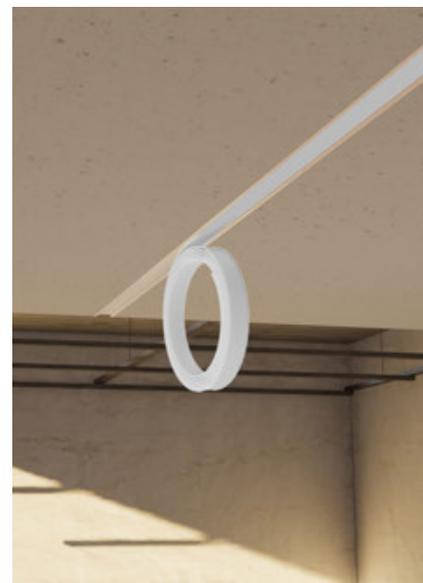

## Diffusore a rotolo

Il diffusore a rotolo consente di creare linee di luce prive di interruzioni, semplificando le operazioni di montaggio. Le Rollip modulari a incasso permettono di scegliere tra diverse tipologie di diffusore, in base all'emissione desiderata. Rollip35\_MC propone diffusore a rotolo opalino in sezioni da 5, 10, 20 e 50 metri, oppure diffusore a rotolo con filtro asimmetrico nelle misure da 5 e 10 metri. Rollip70\_MC include le medesime versioni con larghezza maggiorata, aggiungendo la possibilità di optare per la variante con filtro UGR<19 da 5 o 10 metri per applicazione a norma in ambienti lavorativi dove si prevede l'utilizzo di monitor e display vari (norma EN12464-1). I diffusori sono combinabili tra loro, grazie all'estetica inalterata di tutti e tre i modelli.

## Roller diffuser

The roll diffuser allows the creation of uninterrupted lines of light, simplifying assembly operations. The modular recessed Rollips allow the user to choose between different types of diffuser, according to the desired emission. Rollip35\_MC offers opaline roll diffuser in sections of 5, 10, 20 and 50 metres, or roll diffuser with an asymmetrical filter in sizes 5 and 10 metres. Rollip70\_MC includes the same versions with increased width, adding the possibility to opt for the variant with UGR filter<19 5 or 10 metres for application in working environments where the use of various monitors and displays is expected (standard EN12464-1). The roll diffusers can be combined with each other, thanks to the unaltered aesthetics of all three models.

## Accessori

Il kit tappi contiene due elementi che chiudono le estremità del sistema preservandone l'estetica ed il grado IP54. La dima ordinabile a parte permette un taglio pulito e lineare del cartongesso, per un foro perfettamente a misura per l'incastro dell'apparecchio a incasso. La dima consente inoltre linee di taglio molto lunghe e precise. Estremamente semplice da usare, il kit include due pezzi con incastrati complementari.

## Accessories

The cap kit contains two elements that close the ends of the system, preserving the aesthetics and the IP54 degree. The separately ordered template allows a clean and linear cut of the plasterboard, for a perfectly sized hole for the recessed luminaire. The template also allows very long and precise cutting lines. Extremely easy to use, the kit includes two pieces with complementary joints.

## Dettagli costruttivi

Struttura realizzata in alluminio (EN AB 46100) pressofuso verniciata a polveri epossidiche di zirconio. Sulla lega di base viene eseguito un pretrattamento elettrochimico di anodizzazione a poro aperto che garantisce un'ottima resistenza alla corrosione. Copertura frontale in vetro temprato extra-chiaro (spessore di 4mm) che garantisce un'elevata resistenza agli urti. Il grado di protezione e la tenuta sono garantiti da una guarnizione siliconica. Sospensione a LED dall'elevata resistenza meccanica (IK08). Sistema di aggancio per permettere l'installazione con cavi di sospensione/catene (non incluse). Tutte le viti e le staffe dell'apparecchio sono in acciaio inox.

## Construction details

Structure made of zirconium epoxy powder coated die-cast aluminium (EN AB 46100). An electrochemical open-pore anodising pretreatment is carried out on the base alloy which guarantees outstanding corrosion resistance. Front cover in extra clear tempered glass (4 mm thick) that ensures high impact resistance. The grade of protection and the seal are guaranteed by a silicone gasket. High mechanical resistance (IK08) LED suspension. Hook system to allow installation with suspension cables/chains (not included). All of the light fixture's screws and brackets are in stainless steel.

Disponibile su richiesta gabbia metallica per protezione contro gli urti. Metallic cage available on request to protect against impact.

Con protezione, conforme alle normative EN13964 (annex D) e DIN 57710-13. With protection, compliant with standards EN13964 (annex D) and DIN 57710-13.

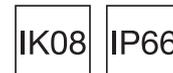

IK08 → IK10

# Alix

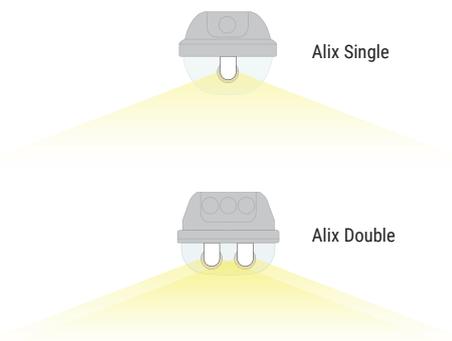

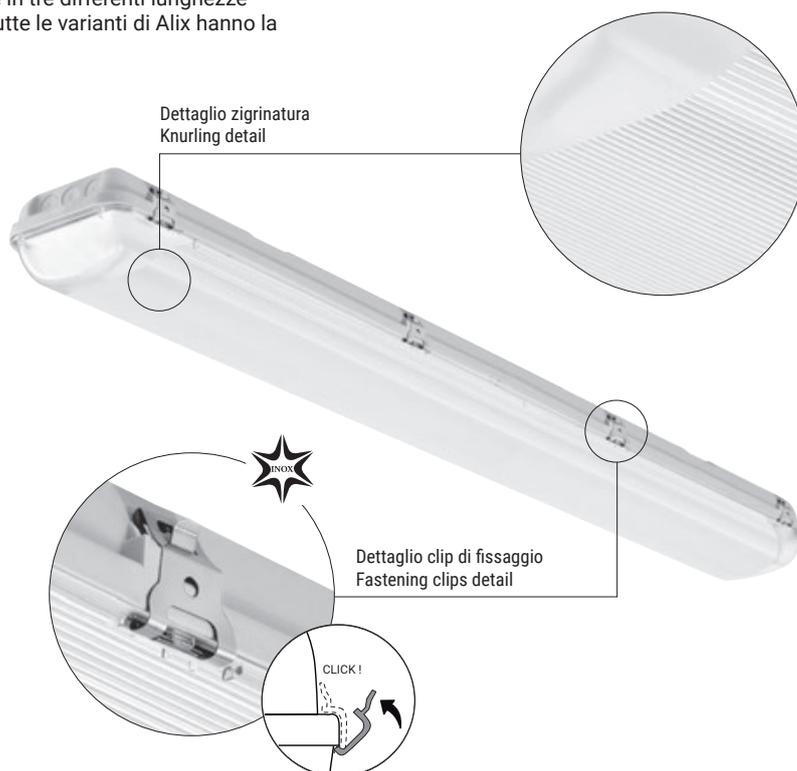

## Versatilità

La famiglia di plafoniere Alix è dotata di sorgente luminosa composta da tubo LED singolo centrale nel corpo stretto per la versione Single, tubo LED doppio nel corpo largo per la versione Double. Entrambe le versioni sono suddivise in tre differenti lunghezze corrispondenti a tre differenti potenze di esercizio. Inoltre tutte le varianti di Alix hanno la corrispondente versione in emergenza EM.

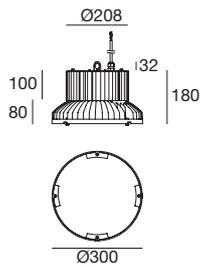

## Versatility

The family of Alix fixtures features a light source made up of a single central LED tube in the narrow body for the Single version, and a double LED tube in the wide body for the Double version. Both versions are subdivided into three different lengths corresponding to three different operating powers. Moreover, all the Alix versions have the corresponding EM emergency version.

### Optic 11 Extra Wide Flood

Gli apparecchi con ottica 11 hanno la superficie interna adiacente alla sorgente LED verniciata di bianco riflettente.

### Optic 11 Extra Wide Flood

The fixtures with 11 optic have an internal surface adjacent to the LED source painted reflective white.

<sup>1</sup> i dati si riferiscono al flusso luminoso della sorgente /  
<sup>1</sup> data are referred to the source's luminous flux

## Ingombro ridotto

Un downlight dall'ingombro minimo, da 46 a 50 millimetri appena, con flangia ridotta e ottiche progettate per alloggiare all'interno del corpo una soluzione intelligente che facilita l'installazione del prodotto.

## Small overall dimensions

A small-footprint downlight, from 46 to barely 50 mm, with a small flange and Optics designed to fit inside the body. This smart solution makes the product easier to install.

# Portik

Portik è dotato di vano ottico recesso che ne aumenta l'angolo di schermatura. Grazie al particolare collarino nero all'estremità della sorgente del corpo lampada, Portik garantisce un perfetto comfort visivo.

Portik features a recessed optical compartment which increases the shielding angle. Thanks to the special black collar at the end of the lamp body source, Portik guarantees perfect visual comfort.

Driver onboard

Driver remote

6,5 W - h 90 mm

12,5 W - h 120 mm

## Lingotto

pag. 170

Gli apparecchi della famiglia Lingotto sono ideali per l'illuminazione di ambienti esterni. La gamma Lingotto prevede soluzioni a sospensione, applique e sistema su tesata. Disponibile in finitura nera o dark brown.

The luminaires of the Lingotto family are ideal for lighting outdoor environments. The Lingotto range includes suspension solutions with standard canopy or suspended on a steel cable, ceiling and wall lamps. Available in black or dark brown finish.

IP65

## Lira

pag. 172

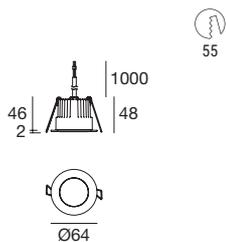

La famiglia Lira è caratterizzata da plafone, sospensione e piantana. Il diffusore in resina poliuretana bianca conferisce un'alta resistenza alle intemperie. Disponibile in finitura nera o dark brown, è ideale per l'illuminazione di spazi esterni.

The Lira family includes ceiling light, suspension and standing lamp. The white polyurethane resin diffuser gives a high resistance to bad weather. Available in black or dark brown finish, the Lira fixtures are ideal for lighting outdoor spaces.

### Definizione ottiche / Optics specify

|                    |                  |           |
|--------------------|------------------|-----------|
| <b>Flood</b>       | Flood            | 25° > 44° |
| <b>W. Flood</b>    | Wide Flood       | 45° > 79° |
| <b>E. W. Flood</b> | Extra Wide Flood | ≥ 80°     |
| <b>General</b>     | General          | -         |
| <b>Asymm.</b>      | Asymmetric       | -         |

<sup>1</sup> i dati si riferiscono al flusso luminoso della sorgente /  
<sup>1</sup> data are referred to the source's luminous flux

<sup>3</sup>  = Foro d'installazione / Installation Hole

## Elegante ed essenziale

Envelope appare con un unico elemento compatto, dall'aspetto pulito e minimale. Le viti, infatti, sono nascoste alla vista. Il sistema ad aggancio rapido con attacco a baionetta facilita l'installazione, la controcassa a scomparsa preserva l'estetica del prodotto. Si può installare anche tramite apposita staffa di fissaggio.

## Simple, elegant and minimalist

Envelope consists of a single compact element, with the screws hidden from view. The bayonet fitting makes it quick and easy to install, and the casing can be concealed for even greater aesthetic impact. Can also be fitted using a bracket.

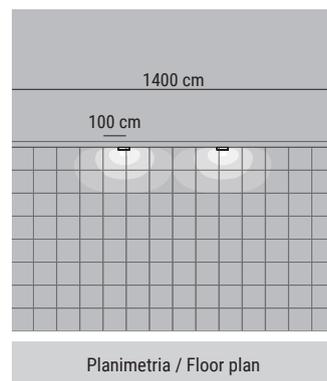

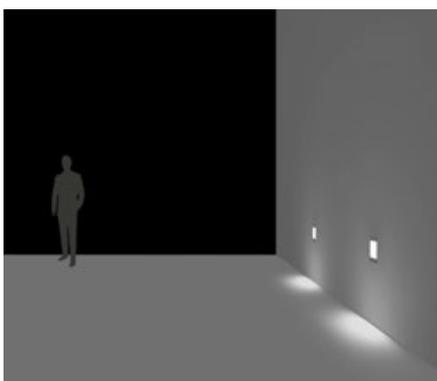

## Ottica recessa, design asimmetrico

La sorgente recessa è nascosta alla vista, pertanto l'apparecchio è totalmete schermato (full cut-off): l'occhio vede ed apprezza soltanto l'emissione, pulita e confortevole. Il design leggermente asimmetrico direziona il fascio verso la zona di calpestio.

## Recessed optic, asymmetric design

The recessed source is hidden from view, so the unit offers full cutoff: all you see is the clean, attractive beam. The slightly asymmetric design directs it towards the path.

# Quara

## Quara

Quara è uno step light ideale per applicazioni a muro, disponibile in versione tonda e quadrata garantisce un effetto "segnapasso" a terra con un elevato controllo del glaring grazie al vano ottico asimmetrico inclinato di 45° rispetto alla flangia del prodotto. Quara è disponibile nelle finiture bianco, dark brown, grigio e acciaio per adattarsi ad ogni tipo di architettura.

Quara is an ideal step light for wall applications, available in round and square versions to guarantee a "step marker" effect on the ground with high glaring control thanks to the asymmetric optical chamber that is tilted at 45° in respect of flange of the product. Quara is available in 4 finishes to suit any type of architecture.

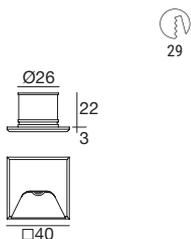

## Quara F

Quara frameless è dotato della stesse caratteristiche ottiche di Quara ma grazie alle scanalature frontali permette di integrarsi perfettamente all'architettura attraverso la rasatura a filo parete del prodotto.

Quara Frameless is equipped with the same optical characteristics as Quara but – thanks to the frontal grooves – can be perfectly integrated with the architecture through shaving the product flush with the wall.

## Ampiezza di gamma

La famiglia Suelo offre una varietà di soluzioni tale da poter soddisfare qualunque esigenza progettuale: versioni fisse o basculanti; uplight con flangia ridotta per installazione a raso oppure con flangia equipaggiata con kit antivandalismo; apparecchi dimmerabili tramite protocollo DALI; modelli PRO con ottica recessa e modelli con sorgente RGBW, oltre ad appositi filtri per il controllo dell'emissione. Tutte le versioni adottano l'esclusivo sistema di protezione AquaStop® e dispongono della variante con convertitore 24 V integrato. È possibile equipaggiare Suelo con il filtro honeycomb, per schermare la luce secondaria e ridurre l'abbagliamento diretto mantenendo inalterata la qualità dell'emissione diffusa; oppure, se si desidera direzionare la luce soltanto su una porzione di parete, è possibile adottare il filtro darklight che seziona parte del fascio impedendo l'abbagliamento diretto anche in prossimità della sorgente. Se si desidera il pieno controllo dell'emissione riducendo drasticamente il rischio di abbagliamento, si possono scegliere le versioni Suelo PRO: la sorgente recessa consente di concentrare l'emissione, scremando totalmente il flusso secondario a favore di un'emissione primaria pulita ed efficiente."

## The range

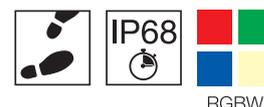

The Suelo family offers a variety of solutions for every design need: fixed and swivel versions, small-flanged flush-mount uplights, and dimmer units using the DALI protocol. There are pro models with recessed optics and RGBW sources, and beam control filters. All models have exclusive AquaStop® protection systems, and there are versions with 24-volt cable converters. Suelo can be used with a honeycomb filter, which screens secondary light and reduces dazzle, maintaining a high-quality diffuse light. A darklight filter directs the illumination onto one part of the wall by sectioning one part of the beam, and prevents dazzle even close to the source. For full beam control and a drastically reduced dazzle risk, choose the Suelo PRO versions, in which the recessed source increases the screening angle, totally skimming off the secondary flow to give a cleaner, more concentrated and efficient light.

# Orma

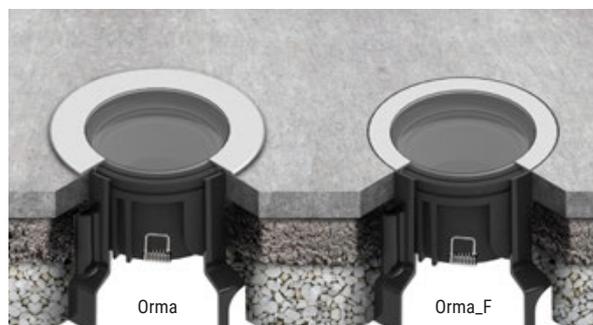

## Versatilità applicativa

Orma rivoluziona il concetto di estetica legato agli uplight, intervenendo sulla tipologia di flangia e offrendo due diverse soluzioni: alla versione standard con flangia in rilievo si abbina il modello Orma\_F con flangia incassata a filo con il suolo. Orma\_F è disponibile anche con kit antivandalismo, semplice da installare grazie al fissaggio tramite viti.

## Total versatility

Orma revolutionises the aesthetics of the uplight, with two different flange types: a standard version with a raised flange, and the Orma\_F, with a flange recessed to ground level. This is also available in an easy-fit screw-in vandalproof version.

**Darklight**

Per installazioni radenti, volendo mantenere soltanto la luce che illumina la porzione di superficie attenuando la parte di emissione che non ci interessa, è possibile utilizzare il filtro darklight: un accessorio che seziona il fascio, preservando la luce che vogliamo direzionare a parete ed impedendo l'abbagliamento diretto anche in prossimità della sorgente.

Con Darklight / With Darklight

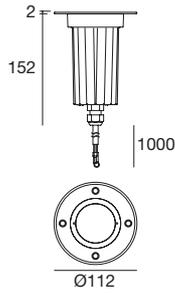

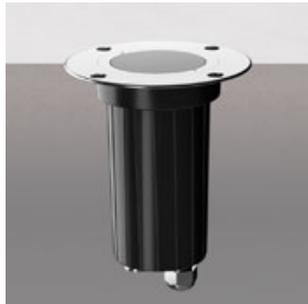

**Darklight**

The darklight filter attenuates the light so that it shines only on a specific area of the surface. This accessory sections the beam so that only a part of it shines on the wall, and prevents dazzle even close to the source.

Senza Darklight / Without Darklight

## SISTEMA DI BLOCCAGGIO

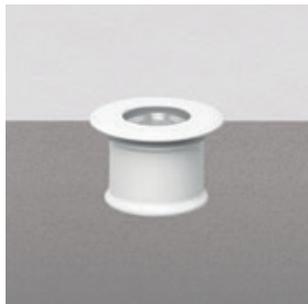

Controcasse tecnologicamente all'avanguardia che garantiscono la massima stabilità di puntamento se si utilizza la versione orientabile dell'apparecchio grazie alle speciali scanalature che stabilizzano la molla e ne evitano la rotazione nel tempo.

## LOCKING SYSTEM

Technologically advanced outer casings that offer maximum pointing stability when using the orientable version of the equipment thanks to the special grooves that stabilise the screw and prevent rotation thereof over time.

<sup>1</sup> i dati si riferiscono al flusso luminoso della sorgente /  
<sup>1</sup> data are referred to the source's luminous flux

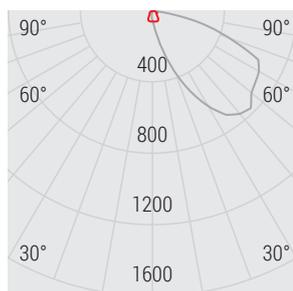

## Controllo e performance

Unità luminose equipaggiate con lenti dedicate gestiscono la distribuzione della luce con il massimo controllo. Effetti asimmetrici intensivi in grado di illuminare viabilità secondaria, piazze, parchi e giardini.

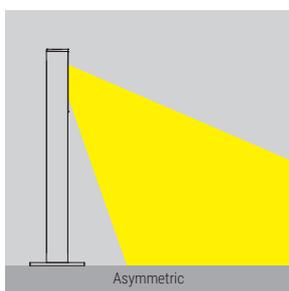

## Control and performance

Luminous unit equipped with dedicated lens managing light distribution with maximum control. Asymmetric effects able to light up secondary roads, squares, parks and gardens.

# My White Bond

## Ampiezza di gamma

Una famiglia versatile pensata per le applicazioni outdoor più comuni, nelle versioni bollard in tre altezze e applique/plafone. La copertura superiore in policarbonato scherma la sorgente e riduce drasticamente l'abbagliamento, per un'illuminazione radiale morbida e confortevole. Supporti palo in Bayblend® (miscela policarbonato-ABS), diffusore in polietilene bianco.

## Wide range

A versatile product family designed for the most common outdoor applications, available as bollard in three different heights and wall/ceiling light. The upper polycarbonate cover shields the source and drastically reduces the glaring, for a soft and comfortable radial light. Pole supports made of Bayblend® (a polycarbonate-ABS mixture) with white polyethylene diffuser.

**Qualità costruttiva**

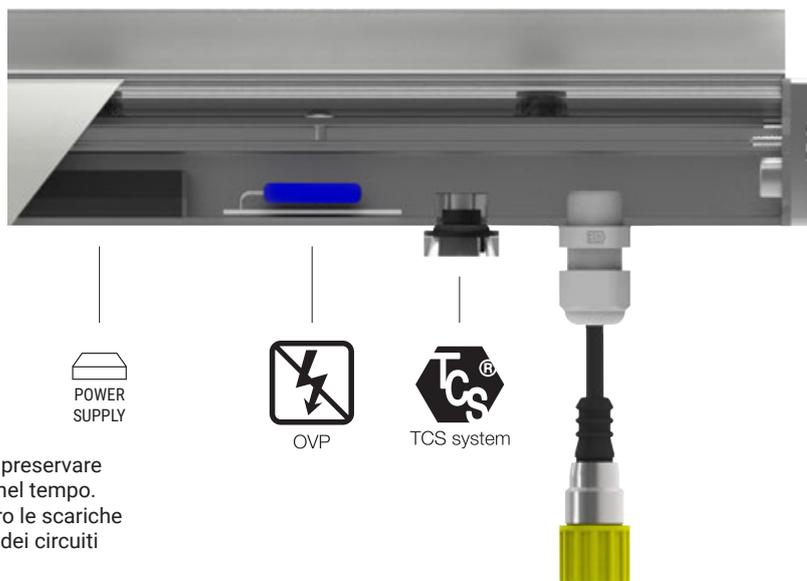

Il processo costruttivo di Xenia è stato studiato prevedendo l'utilizzo di materiali e componenti di altissima qualità. Per la loro tipologia d'installazione questi prodotti necessitano di una struttura costruttiva resistente e capace di adattarsi alle diverse condizioni climatiche, dalle temperature glaciali (-20°C) alle alte temperature estive (+60°C) senza alterare le proprie prestazioni. Per ottenere questa elevata resistenza alla corrosione viene utilizzata la lega di alluminio 6060 che successivamente viene trattata con una anodizzazione anodica di spessore 10 micron.

**Sistemi di sicurezza**

Abbiamo sviluppato diversi specifici sistemi sicurezza per preservare l'integrità degli apparecchi alla corrosione e la loro durata nel tempo. Sistemi di protezione contro le sovratensioni (OVP) e contro le scariche elettrostatiche (ESD). Sistemi per salvaguardare l'integrità dei circuiti dalla formazione di umidità (TCS®).

**High-quality construction**

Xenia is made from very high-quality materials and components. Because of the ways in which they are used, these lights must be durable and able to maintain their performance in temperatures ranging from a glacial -20°C to a sultry +60°C. They are also highly corrosion resistant, thanks to their use of 6060 aluminium alloy and 10-micron anodisation.

**Safety systems**

We have developed a variety of corrosion protection technology to maximise the lifespan of our lights. They also have overvoltage and electrical discharge protection, TCS® to protect their circuits from moisture.

Paseo

**Protezione massima**

Una scarica elettrostatica avviene quando, tra due corpi vicini o a contatto, ha luogo un trasferimento di cariche che in alcuni casi può causare danni ad elettronica e moduli LED. Le Paseo con driver incorporato sono dotate di dispositivo per la protezione dalle scariche elettrostatiche (ESD) fino ai 4KV.

È possibile installare Paseo a incasso, a parete, a soffitto e a plafone. Paseo can be recessed or fitted to a wall, ceiling or floor.

Tappi saldati mediante ultrasuoni, garantiscono una perfetta resistenza meccanica e continuità luminosa. Ultrasonic-welded caps offer perfect mechanical resistance and light continuity.

Cavi in PUR termoplastico con connettori in IP67 ad attacco rapido in M12 a 4 o 5 poli. Thermoplastic PUR cables with IP67 quick coupling connectors made of M12 with 4 or 5 poles.

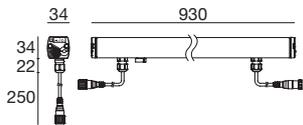

Molla in acciaio per aggancio sicuro del profilo Paseo alla controcassa. Steel spring for safe coupling of the Paseo profile to the outer casing.

Apparecchio dotato di valvola TCS®, per evitare la formazione di umidità all'interno del profilo. Apparatus equipped TCS® valve, to avoid the formation of humidity in the profile.

**Maximum protection**

An electrostatic discharge occurs when, between two bodies that are close or at contact, there occurs a transfer of charges which could at times damage electronics and LED modules. Paseos with incorporated drivers come with an up to 4KV electrostatic discharge (ESD) protection.

## Shaker

pag. 234

Shaker è un proiettore da esterno con driver integrato. Dotato di ottica direzionale, è applicabile a pavimento, parete o su picchetto. Il corpo di shaker è in alluminio e vetro temperato che ne conferiscono un indice di protezione elevato (IP66). Munito di staffa graduata, Shaker garantisce massima precisione in fase di puntamento.

The Shaker is an outdoor projector with integrated driver. Equipped with directional optics, it can be applied to the floor, wall or on a ground spike. The Shaker body is made of aluminium and tempered glass to ensure a high protection index (IP66). Equipped with a grade rod, the Shaker ensures maximum directional precision.

NEW

## Eyelet65

pag. 232

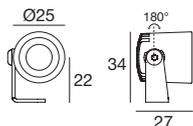

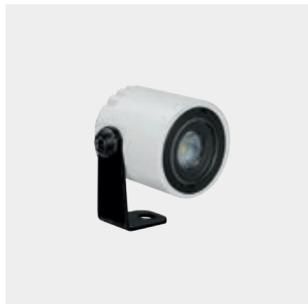

Proiettore direzionale da esterno con dimensioni estremamente ridotte, ideale per l'illuminazione di sculture, piante e percorsi esterni. È disponibile in versione quadrata e rotonda e può essere installato mediante l'utilizzo del picchetto.

IP65

A directional outdoor projector with extremely small dimensions, ideal for illuminating sculptures, plants and outdoor pathways. Available in square and round versions, this light can be installed just by using the spike.

## Iris67

### Proiettore versatile in IP67

Esteticamente curato, dalle forme minimali, Iris67 introduce la possibilità di gestire professionalmente il fascio luminoso in ambiente outdoor, consentendo un'ampio spettro di situazioni illuminotecniche applicabili ad elementi decorativi (statue, installazioni) e piante ad alto fusto. Un dispositivo per un'illuminazione avanzata, IP67 ed interamente in alluminio: il design concreto e affidabile di Iris67 garantisce massima protezione da agenti atmosferici, acqua (escluso immersione) e particelle microscopiche.

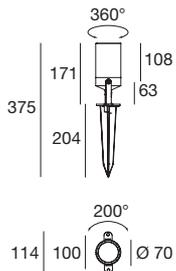

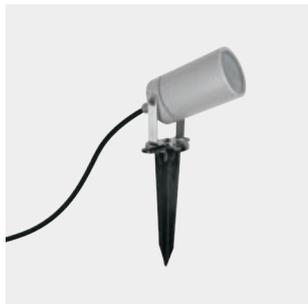

### IP67 versatile spotlight

Aesthetically pleasing with minimal forms, Iris67 introduces the possibility of professionally managing the light beam in an outdoor environment, allowing a broad spectrum of lighting situations applicable to decorative elements (statues, installations) and high plants. A device for advanced lighting, IP67 and entirely in aluminium: the concrete and reliable design of Iris67 guarantees maximum protection against atmospheric agents, water (with the exception of immersion) and microscopic particles.

### IP69

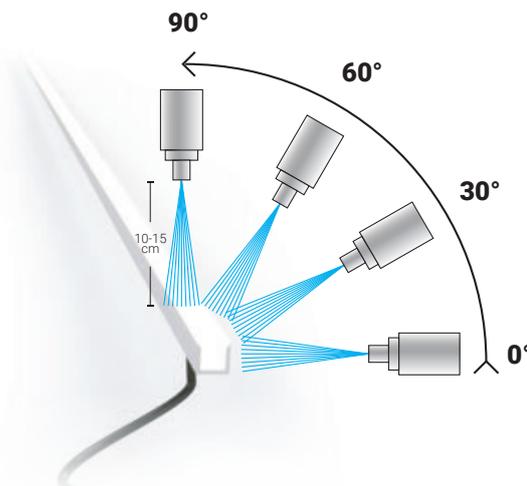

L'IP69 è una classificazione della norma tedesca DIN 40050-9 che estende la classificazione standard IP, sviluppata per settori in cui è necessaria la protezione supplementare contro le alte pressioni e le alte temperature. Rubber 3D PROtection ha superato il test IP69: una volta installata in piscina o in altri ambienti che necessitano di pulizie periodiche mediante l'utilizzo di idropulitrice, Rubber PROtection resiste a getti di acqua calda ad alta pressione direzionati direttamente sul prodotto, senza bisogno di essere rimossa e successivamente riposizionata. Un vantaggio considerevole che consente di evitare operazioni di manutenzione altrimenti obbligatorie e da ripetere nel tempo. L'IP69 è una classificazione aggiuntiva che affianca l'IP68 standard previsto dal sistema IEC60529. Rubber 3D PROtection è certificata per entrambi i gradi di protezione.

### IP69

IP69 is a classification of the German DIN 40050-9 standard that extends the standard IP classification, developed for sectors where supplementary protection against high pressures and high temperatures is needed. Rubber 3D PROtection has passed the IP69 test: once installed in a pool or other environments that require periodic cleaning through the use of a pressure washer, Rubber PROtection withstands jets of high-pressure or hot water aimed directly on the product, without needing to be removed and subsequently repositioned. This is a considerable advantage that lets you avoid maintenance operations which would otherwise be compulsory and need to be repeated over time. IP69 is an additional classification that comes alongside the IP68 standard set forth by the IEC60529 system. Rubber 3D PROtection is certified for both grades of protection.

High Temperature 80°C  
 High Pressure 80/100 bar

### 3D

Rubber 3D è unica nel suo genere: grazie alla struttura brevettata del circuito interno, il prodotto può piegarsi su tutti gli assi e rendere possibili nuovi metodi installativi e concetti applicativi. Non c'è limite all'immaginazione: strutture curvilinee organiche e fluide, con cambi di direzione repentini, non rappresentano più un problema grazie alla flessibilità senza vincoli di Rubber 3D. Le rotte si possono facilmente tagliare ogni 45 millimetri, per garantire la massima versatilità d'utilizzo. I cavi entra/esci consentono di collegare in serie più apparecchi illuminanti mantenendo la luce uniforme e costante per tutta la lunghezza complessiva dell'installazione, senza interruzioni nei punti di giunzione. Raggio minimo di curvatura: 250 mm.

### 3D

Rubber 3D is unique in its kind. Thanks to the patented structure of the internal circuit, the product can bend on all axes and make new installation methods and application concepts possible.

There is no limit to imagination: organic and fluid curved structures with abrupt direction changes are no longer a problem, thanks to the unrestricted flexibility of Rubber 3D. The rolls can be easily cut every 45 millimetres to guarantee maximum versatility of use. The input/output cables permit the connection of multiple fixtures in series, maintaining uniform and constant light for the entire overall length of the installation, without interruptions in the junction points. Minimum curvature radius: 250 mm.

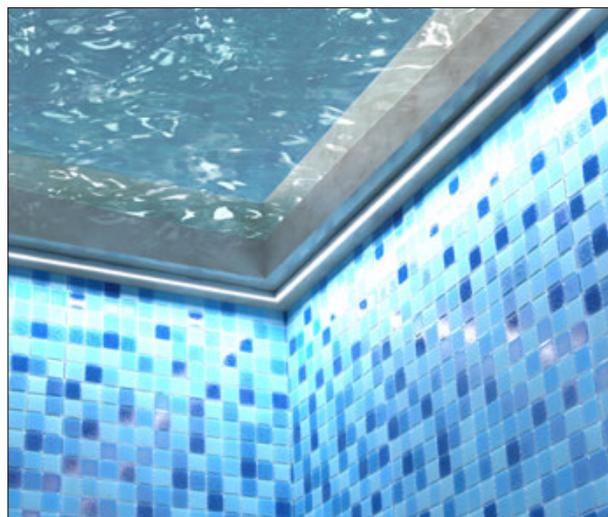

### IP68 e immersione permanente

Rubber 3D PROtection è certificata con grado IP68, pertanto si presta ad installazioni permanenti, fino a 3 metri di immersione, in ambienti come piscine, fontane, cascate verticali, docce moderne e simili, garantendo al contempo la massima flessibilità. In aggiunta, il cavo d'alimentazione a tenuta stagna permette una protezione dall'acqua. Lungo ben 5 metri, ben più della media se consideriamo prodotti simili già presenti nel mercato, il cavo consente il collocamento del gruppo di alimentazione in separata sede, aiutando l'installatore e facilitando la successiva manutenzione e/o eventuali sostituzioni.

### IP68 and permanent submersion

Rubber 3D PROtection is certified with a grade of IP68, therefore it lends itself well to permanent installations, submerged up to 3 metres, in environments such as pools, fountains, vertical waterfalls, modern showers and similar, at the same time guaranteeing maximum flexibility. In addition, the waterproof power cable allows protection from the water. An amazing 5 metres long, much longer than the average if we consider similar products already available on the market, the cable allows placement of the power supply unit in a separate site, helping the installer and facilitating subsequent maintenance and/or any replacements.

### Cove Light

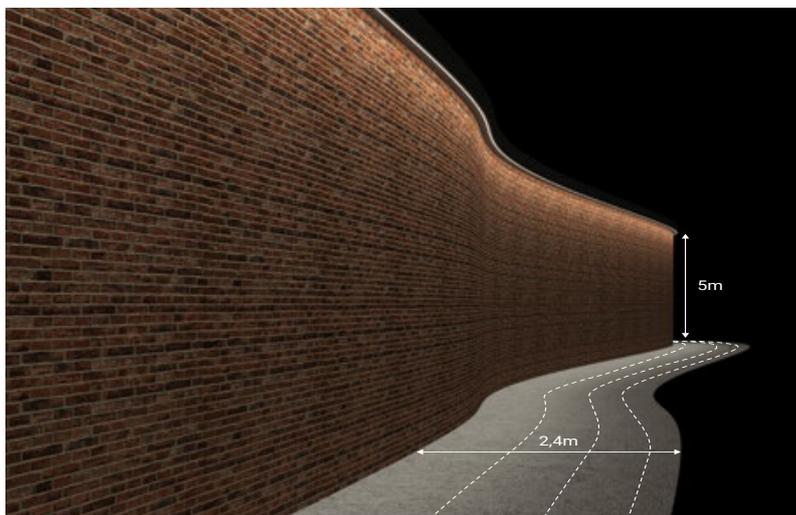

Prodotto installato: Rubber 3D Optic  
White Finish | Optic 20°  
Distanza installazione: 10 cm  
Lunghezza muro: 32,5 m

Illuminamento camminamento: 250 lux medi

Walkway lighting: 250 lux medium

## 2D

Rubber 2D e la novità Rubber 2D Mini completano la famiglia Rubber, ampliando il range di scelta. Rubber 2D è estremamente flessibile e può piegarsi fino a coprire un raggio molto stretto, adattandosi perfettamente ai profili sinuosi e percorrendo curve e controcurve. Rubber 2D è disponibile fino a 10 metri di lunghezza massima per singola rolla e può essere sezionata ogni 50 mm, consentendo una grande duttilità compositiva. L'IP67 garantisce svariati ambiti installativi in ambienti esterni. Grazie al collegamento con cavi entra/esci, la luce è uniforme e costante per tutta la lunghezza, anche nei punti di giunzione. Raggio minimo di curvatura: 250 mm.

## 2D

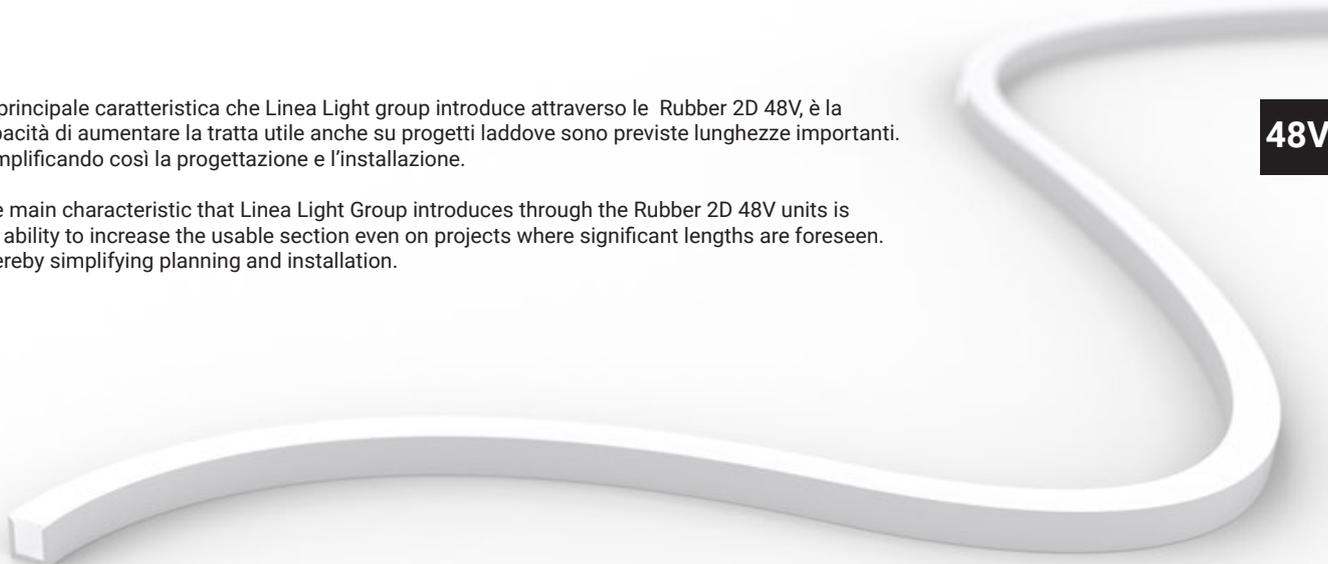

Rubber 2D and the new Rubber 2D Mini complete the Rubber family, expanding the range of choices. Rubber 2D is extremely flexible and can bend all the way to cover a very narrow radius, perfectly adapting to the sinuous profiles and following curves and reverse curves. Rubber 2D is available up to 10 metres in length maximum per single roll and can be cut every 50 mm, allowing great composition adaptability. IP67 guarantees various outdoor installation environments. Thanks to the connection with in/out cables, the light is uniform and constant along its entire length, even at the junction points. Minimum curvature radius: 250 mm.

La principale caratteristica che Linea Light group introduce attraverso le Rubber 2D 48V, è la capacità di aumentare la tratta utile anche su progetti laddove sono previste lunghezze importanti. Semplificando così la progettazione e l'installazione.

The main characteristic that Linea Light Group introduces through the Rubber 2D 48V units is the ability to increase the usable section even on projects where significant lengths are foreseen. Thereby simplifying planning and installation.

48V

## Rubber 2D Mini

Come il modello standard da 14mm, anche la versione Mini si propone come soluzione ideale per curve e controcurve che richiedono il piegamento su un unico asse, abbinando flessibilità d'installazione a grandi prestazioni. Certificata IP67, si differenzia da qualsiasi altra Rubber per le dimensioni estremamente ridotte. In appena 6mm Rubber 2D Mini concentra un circuito progettato ad hoc che permette di ottenere performance molto alte, a fronte di una luce sottilissima, per effetti lineari discreti ed eleganti. Come la parte elettronica interna, anche gli accessori, le clip e i profili sono appositamente studiati per l'ingombro minimo della Rubber 2D Mini. Raggio di curvatura minimo: 150 mm.

## Rubber 2D Mini

Like the standard 14mm model, the Mini version is also an ideal solution for curves and reverse curves that demand bending on a single axis, combining flexible installation with high performance. IP67 certified, it differs from any other Rubber with its extremely reduced dimensions. Rubber 2D Mini packs in just 6mm a custom designed circuit that allows extremely high performance to be achieved with very thin light for discrete and elegant linear effects. Just like the internal electronics, the accessories, clips and profiles are also specifically designed for the minimum bulk of the Rubber 2D Mini. Minimum curvature radius: 150mm

## Accessori / Accessories

### Rubber | Profilo lineare / Linear profile

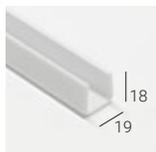

**Description**  
**99549** Anod. Al. 1000 mm / 18 mm / 19 mm  
**suitable for:** Rubber 2D / Rubber 3D

### Rubber | Profilo lineare con passaggio cavo / Linear profile with cable run

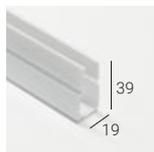

**Description**  
**83034** Anod. Al. 1000 mm / 39 mm / 19 mm  
**suitable for:** Rubber 2D / Rubber 3D

### Rubber | Profilo lineare / Linear profile

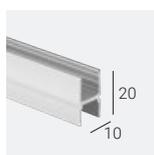

**Description**  
**80418** PVC 1000 mm / 18 mm / 19 mm  
**suitable for:** Rubber 3D PROtection / Rubber 2D / Rubber 3D

### Rubber | Profilo lineare con passaggio cavo / Linear profile with cable run

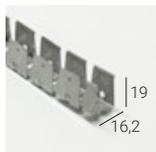

**Description**  
**80419** PVC 1000 mm / 39 mm / 19 mm  
**suitable for:** Rubber 3D PROtection / Rubber 2D / Rubber 3D

### Rubber | Profilo lineare / Linear profile

**Description**  
**82846** Anod. Al. 1000 mm / 20 mm / 10 mm  
**suitable for:** Rubber 2D Mini

### Rubber | Profilo flessibile / Flexible profile

**Description**  
**99541** Steel 1045 mm / 19 mm / 16,2 mm  
**suitable for:** Rubber 2D / Rubber 3D

### Rubber | Clip con molla dentata / Clip with toothed spring

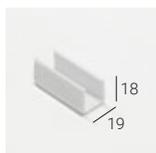

**Description**  
**99536** Anod. Al. 50 mm / 23 mm / 21 mm  
**suitable for:** Rubber 2D / Rubber 3D

### Rubber | Clip con molla dentata con passaggio cavo / Clip with toothed spring with cable run

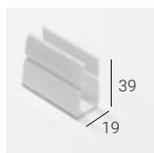

**Description**  
**99537** Anod. Al. 50 mm / 41 mm / 21 mm  
**suitable for:** Rubber 2D / Rubber 3D

### Rubber | Clip

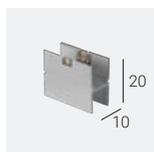

**Description**  
**80733** PVC 50 mm / 18 mm / 19 mm  
**suitable for:** Rubber 3D PROtection / Rubber 2D / Rubber 3D

### Rubber | Clip con passaggio cavo / Clip with cable run

**Description**  
**80734** PVC 50 mm / 39 mm / 19 mm  
**suitable for:** Rubber 3D PROtection / Rubber 2D / Rubber 3D

### Rubber | Clip con molla dentata / Clip with toothed spring

**Description**  
**82847** Anod. Al. 50 mm / 20 mm / 10 mm  
**suitable for:** Rubber 2D Mini

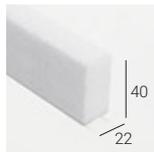

## Accessori / Accessories

| Description                                |
|--|
| <b>99688</b> 2x 0,75 / 2000 mm             |
| <b>suitable for:</b> Rubber 2D / Rubber 3D |

### Rubber | Cavo con connettore maschio Cable with male connector

| Description                                |
|--|
| <b>99689</b> 2x 0,75 / 2000 mm             |
| <b>suitable for:</b> Rubber 2D / Rubber 3D |

### Rubber | Cavo con connettore femmina RGBW Cable with female connector RGBW

| Description                         |
|-------------------------------------|
| <b>99692</b> 5x 0,75 / 2000 mm      |
| <b>suitable for:</b> Rubber 3D RGBW |

### Rubber | Cavo con connettore maschio RGBW Cable with male connector RGBW

| Description                         |
|-------------------------------------|
| <b>99693</b> 5x 0,75 / 2000 mm      |
| <b>suitable for:</b> Rubber 3D RGBW |

## Accessori IP68 / IP68 Accessories

### Rubber | Controcassa / Recessed casing

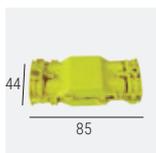

| Description   |
|---|
| <b>98148</b>  |
| <b>suitable for:</b> Rubber 3D PROtection / Rubber 2D / Rubber 3D |

### Rubber | Nastro biadesivo / Double-sided tape

| Description   |
|---|
| <b>99520</b> 33 m                                     |
| <b>suitable for:</b> Rubber 3D PROtection / Rubber 3D |

### Rubber | Connettore / Connector

| Description   |
|---|
| <b>89548</b>  |
| <b>suitable for:</b> Rubber 3D PROtection / Rubber 3D |

### Rubber | Connettore / Connector

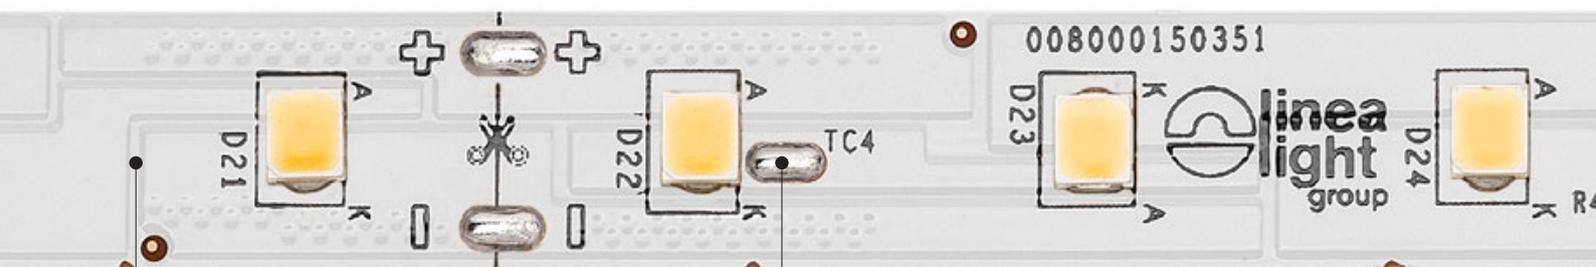

| Description   |
|---|
| <b>98990</b>  |
| <b>suitable for:</b> Rubber 3D PROtection / Rubber 3D |

# QUALITÀ, MATERIALI, MISURE DI SICUREZZA, TEST E CONTROLLI PARLANO UN'UNICA LINGUA

## QUALITY, MATERIAL, SECURITY MEASURE, TEST AND CONTROL SPEAK ONLY ONE LANGUAGE

### Qualità garantita

Rubber e Strip, sono certificati e garantiti per 3 anni e fino a 5 su richiesta. Le diverse tipologie, temperature colore e potenze, grazie a una filiera corta e controllata totalmente Made in Italy, sono immediatamente disponibili. L'azienda è certificata ISO 9001. I materiali e i componenti impiegati, per la costruzione dei nostri prodotti, sono garantiti da enti certificatori internazionali quali IMQ e UL, e sono marchiati e testati secondo le norme CE.

### Quality

Rubber and Strip, like all the Light Group Line products, are certified and guaranteed for 3 years and up to 5 upon request. The various types, colour temperatures, and power, thanks to a short and controlled supply chain totally Made in Italy, are available immediately. The company is ISO 9001 certified. The materials and components used for the creation of our products are guaranteed by international certifying bodies such as IMQ and UL, and are marked and tested in accordance with EC standards.

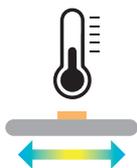

### Materiali

Ogni materiale impiegato per costruire Rubber e Strip è di altissima qualità. Rubber ha la struttura in poliuretano e il diffusore in resina poliuretanica, che garantisce la massima flessibilità e versatilità grazie alla qualità materie prime utilizzate. Strip LED è rivestito in poliuretano, un materiale capace di resistere a sollecitazioni e a temperature importanti. Inoltre, sono tutti predisposti per resistere all'invecchiamento o ingiallimento nel tempo. Il rame impiegato per i circuiti, puro al 99,9%, garantisce la perfetta continuità delle connessioni elettroniche. La gamma Flex Light è per sua natura auto-dissipante, non necessita di corpi o sistemi dissipanti aggiuntivi.

### Material

All the material used to create Rubber and Strip is of very high quality. Rubber has its structure in stabilised polyurethane and the diffuser in polyurethane resin, which guarantees maximum flexibility and versatility thanks to the quality raw materials used. Strip LED is covered in polyurethane, a material capable of resisting stresses and high temperatures. In addition, they are all prepared to resist ageing and yellowing over time. The copper used for the circuits, which is 99.9% pure, guarantees the perfect continuity of the electronic connections. The Flex Light range is by its very nature self-dissipating, it does not need additional dissipating bodies or systems.

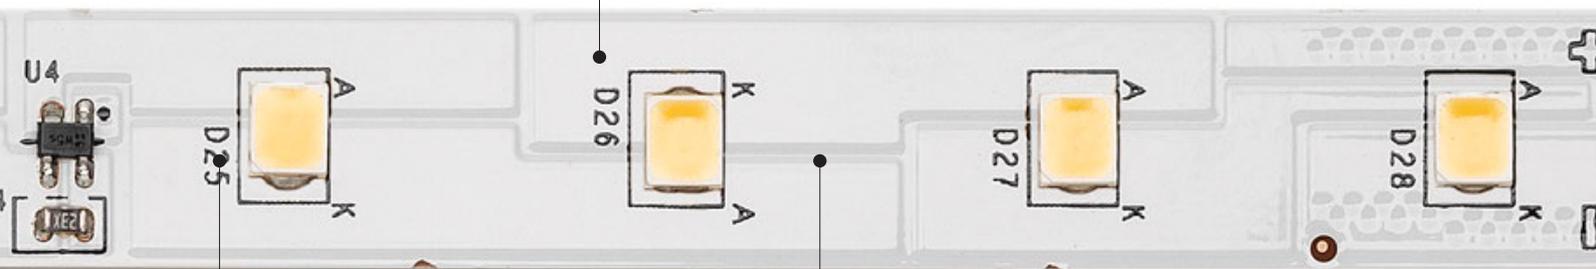

### Autodissipazione

La potenza dei diodi LED viene opportunamente gestita per assicurare la miglior resa luminosa e contemporaneamente controllare il calore generato, salvaguardando l'integrità del circuito. I microfori presenti sulla superficie in poliuretano aiutano a disperdere il calore e a mantenere una corretta temperatura di esercizio. Diventa pertanto possibile applicare Rubber e Strip su molteplici superfici, per realizzare installazioni luminose di ogni genere.

### Dissipation

Rubber is made up of different materials: the structure in polyurethane and the diffuser in polyurethane resin. Strip is coated in silicone. Like all plastic materials, these are also subject to chromatic and physical variations over time. Linea Light Group has selected materials that prevent these side effects. The purpose of the UV rays test is to predict ageing in the products, simulating extreme conditions (up to 80°C) and thermal shocks. This allows us to guarantee the material and their performance over time.

### ICs Regulatori

Tutta la gamma Flex Light dispone di un sistema a polarità inversa, che funziona da garanzia e protezione in caso di montaggio con poli invertiti. Inoltre, la presenza di regolatori ICs garantiscono uniformità e omogeneità luminosa per tutta la lunghezza installata.

### IC regulators

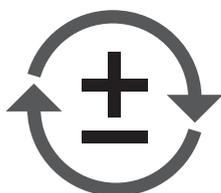

The entire Flex Light range has a reverse polarity system, which works as a guarantee and protection in case of assembly with reversed poles. Furthermore, the presence of IC regulators guarantee light uniformity and homogeneity the entire installed length.

### Test e controllo

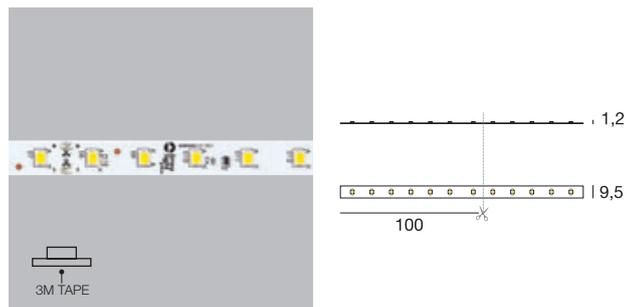

Rubber e Strip LED sono stati studiati e realizzati per garantire il miglior comfort visivo possibile. L'intera gamma è predisposta per assecondare il ritmo circadiano, semplicemente regolando l'intensità luminosa e la temperatura colore in modo graduale da 3000 K a 6000 K. Questo permette di controllare la melatonina e fissare il cortisolo, entrambi indispensabili per il benessere visivo e vitale dell'uomo. Inoltre, i numerosi test danno garanzia di durabilità e mantenimento dell'efficacia e della qualità luminosa, fattori di grande importanza in ambienti chiusi o protetti, come uffici o ospedali.

### Test e control

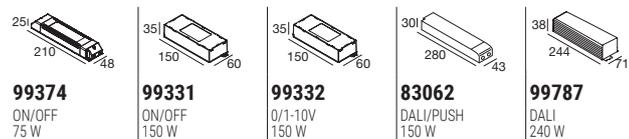

Rubber and Strip LEDs have been designed and created to ensure the best visual comfort possible. The entire range is set up to support the circadian rhythm, simply by regulating the light intensity and the colour temperature gradually from 3000 K to 6000 K. This makes it possible to control the melatonin and set the cortisol, both indispensable for the visual and vital well-being of man. Moreover, the numerous tests serve as guarantee of durability and retention of the efficacy and quality of the light, factors of great importance in closed or protected environments, such as offices or hospitals.

Scaricatore di sovratensioni per scariche indirette di Tipo T3 (CEI EN 61643-11/A11) con classificazione di prova III (CEI EN 61643-11 Ed.1).  
 Limitatore di sovratensioni multipolare con spinterometro e varistori collegati in serie verso le fasi attive.  
 Tipologia costruttiva di tipo combinato a innesco con limitazione.  
 Assenza di corrente di dispersione.  
 Assenza di corrente susseguente di rete dovuta al combinato serie varistore/spinterometro.

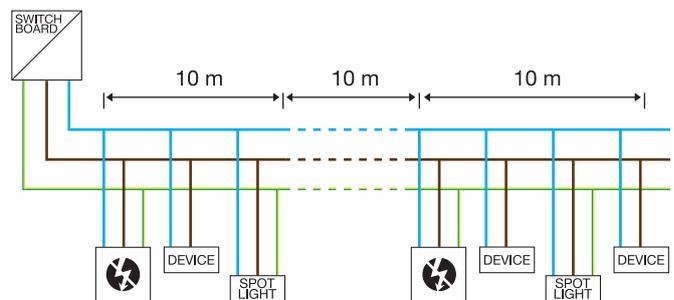

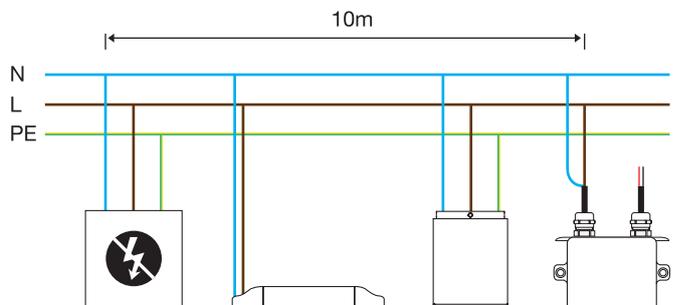

Surge arrester for T3 indirect discharges (CEI EN 61643-11/A11) with test classification III (CEI EN 61643-11 Ed.1).  
 Multi-pole overvoltage limiter with spark gap and varistors connected in series to the active phases.  
 Construction type combining priming with limitation.  
 Absence of leakage current.  
 No subsequent mains current due to the combined varistor / spark gap series.

**Regole d'installazione**

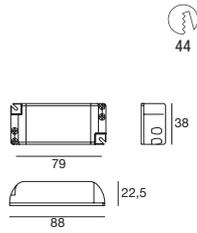

L'installazione di un solo scaricatore in ingresso ad ogni linea può non essere sufficiente a garantire una protezione efficace per l'intero impianto. Vengono considerati protetti con un'efficacia del 100% tutti gli apparecchi di illuminazione installati ad una distanza di 10 m a valle dello scaricatore. Se la lunghezza del cavo tra lo scaricatore e gli apparecchi di illuminazione supera i 10 m si consiglia di rinnovare la protezione posizionando un altro scaricatore in prossimità degli apparecchi da proteggere (entro 10 m). Al fine di garantire il livello di protezione massimo installare gli scaricatori nella modalità sopra descritta per ogni linea dell'impianto.

**Installation rules**

The installation of only one unloader for each line may not be sufficient to guarantee effective protection of the entire system. All luminaires installed at a distance of 10 m from the arrester are considered to be 100% protected. If the length of the cable between the arrester and the luminaires exceeds 10 m, it is advisable to renew the protection by placing another arrester near the devices to be protected (within 10 m). In order to guarantee the maximum level of protection, install the arresters according to the method described above for each line of the system.

## Bit | On/Off Driver

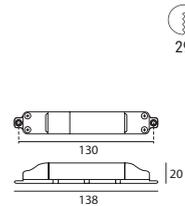

|              | Range            | Output    | Input       | Eff. | PF    | Surge  |

Alimentatore multipotenza fornito di dip-switch per la selezione della corrente in uscita. Protezione: Termica, contro le extra-tensioni di rete, contro i sovraccarichi. RIPPLE FREE  $\leq$  3%.

Su richiesta certificazione BIS.

Regolazione della luminosità 0/1 - 100% mediante funzione PUSH interfaccia 0/1-10 V ( $I=1$  mA) o potenziamento da 100 Kohm e DALI.

Possibilità di utilizzo funzione PUSH fino a 4/5 alimentatori senza cavo di sincronismo.

La lunghezza massima del cavo, dal pulsante all'ultimo trasformatore, deve essere max. 15 m.

Multipower driver supplied with dip-switch for the selection of the output current. Protections: against overheating and short circuits, against mains voltage spikes, against overloads.

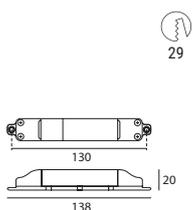

RIPPLE FREE  $\leq$  3%.

On request BIS certification.

Light regulation 0/1 - 100% by means of PUSH function, 0/1-10 V interface ( $I=1$  mA) or 100 Kohm potentiometer and DALI.

Possibility to use PUSH function to 4/5 drivers without sync cable.

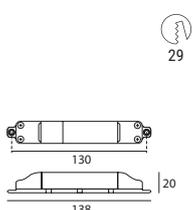

Maximum length of the cable, from push button to last driver, must be max. 15 m.

|              | Range             | Output      | Input  | Eff. |

| <b>99309</b> | Transp. | DALI 15~16V DC | CLAMP     | 220~240V AC |

Power supply for 200 mA DALI BUS, for DALI devices, or control modules without own power supply.

Alimentatore per il BUS DALI da 200 mA per dispositivi DALI o moduli di controllo senza alimentazione propria.

Dali\_USB | DALI Controller

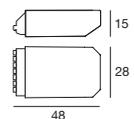

|              | Type    | Signal Output | Connector | Input     |
|--------------|---------|---------------|-----------|-----------|
| <b>99308</b> | Transp. | DALI          | CLAMP USB | 4.5~5V DC |

Interfaccia PC/DALI.  
 Permette di interfacciare il PC con il sistema DALI ed effettuare l'indirizzamento dei singoli driver, gestire scene e gruppi.  
 Il sistema deve essere integrato con il software gratuito "MasterCONFIGURATOR".  
 Alimentazione tramite cavo DALI e interfaccia USB.

PC/DALI interface.  
 It allows the PC to interface with the DALI system and to address individual drivers, managing scenes and groups.  
 The system must be integrated with the free "MasterCONFIGURATOR" software.  
 Powered by DALI cable and USB interface.

|--------------|-------|---------------|-----------|-----------|
| <b>99311</b> | White | DALI          | CLAMP     | 15~16V DC |

4 ingressi indipendenti per contatti/pulsanti N/O.  
 Modalità di funzionamento regolabile tramite 2 selettori rotativi.  
 Possibilità di collegare più DALI XC sulla linea DALI.  
 Alimentazione tramite cavo DALI.  
 Cavi di collegamento, con lunghezza 25 cm, in base ai colori del terminale, inclusi.

4 independent inputs for N/O contacts/buttons.  
 Operating mode adjustable via 2 rotary switches.  
 Possibility of connecting multiple DALI MSensors in a group and on the DALI line.  
 Power supply via DALI cable.  
 Connection cables, with a length of 25 cm, depending on the colours of the terminal, included.

Compatible con protocollo USITT DMX 512-A.  
Indirizzamento DMX tramite interfaccia pulsante: CH1 - CH512.  
Possibilità di impostare la corrente d'uscita da 220mA a 1A, tramite interfaccia pulsante.  
Visualizzazione della corrente e dell'indirizzo DMX su display.  
Modifica delle impostazioni, indirizzo DMX e corrente, in tempo reale. Possibilità di gestire 3 o 4 indirizzi/canali DMX (RGB - RGBW - WRGB) tramite jumper.  
Apparecchio adatto al montaggio su guida DIN Omega 35mm.

Compatible with USITT DMX 512-A protocol.  
DMX addressing via push-button interface: CH1 - CH512.  
Possibility to set the output current from 220mA to 1A, via push-button interface.  
Display of the current and the DMX address on the display screen.  
Change settings, DMX address and current, in real time. Possibility of managing 3 or 4 DMX addresses/channels (RGB - RGBW - WRGB) via the jumper.  
Fixture suitable for mounting on 35mm Omega DIN rail.

Dalc | Mono CV DMX/RDM 1ch

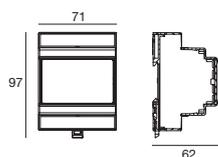

**84865**  
Cavo / Cable

| Range        | Output     | Input  | Eff.       |
|--------------|------------|--------|------------|
| <b>83177</b> | 1-78 W DC  | 8A 12V | 12V DC 95% |
|              | 1-156 W DC | 8A 24V | 24V DC 95% |
|              | 1-312 W DC | 8A 48V | 48V DC 95% |

Adatto ad alimentare prodotti a tensione costante 12/24/48V. Regolazione tramite interfaccia DMX, PUSH, interfaccia 0/1-10V oppure potenziometro. Canale singolo di uscita.

Suitable for powering 12/24/48V constant voltage products.  
Regulation via DMX interface, PUSH, 0 / 1-10V interface or potentiometer. Single output channel.

Unswitch Switch

L'installazione dell'emergency kit è rapida e semplice: basta collegare la Emergency unit al driver dell'apparecchio a LED come da schema.

\*il driver non è incluso nel kit Emergency / il kit Emergency è collegabile a tutti i driver originali dell'apparecchio a LED.

The installation of the emergency kit is quick and simple: the Emergency unit only needs to be connected to the LED driver as shown in the diagram. \*the driver is not included in the Emergency kit/the Emergency kit can be connected to all the original drivers of the LED device.

- Funzionamento in sola emergenza
- Funzionamento in luce continua in abbinamento con alimentatori elettronici, elettronici dimmerabili
- Versione regolabile con dip-switch, per power LED a corrente costante o per moduli LED a tensione costante
- Collegabili ad alimentatori con tensione e corrente massima in uscita 90V e 2A
- Intervento istantaneo ad ogni mancanza di rete
- Batterie al NiCd "alta temperatura"
- Indicatore di ricarica a LED con cavo FROR
- Dispositivo di protezione contro le scariche prolungate
- Possibilità di autodiagnosi con modulo esterno MAT4 DALI
- Dispositivo di ricarica con isolamento principale in grado di ricaricare la batteria in modo normale dopo la prova di cui al punto 22.3 della norma CEI EN 61347-2-7:2007
- Fornito con pacco batteria 3000 mAh

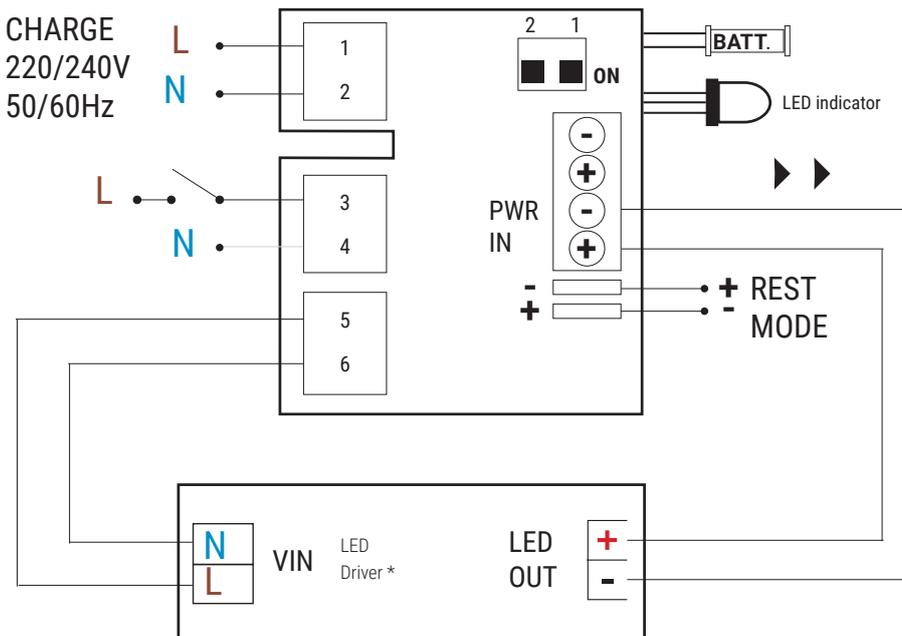

- Maintained or non maintained operation
- Suitable for electronic driver, dimmable electronic driver
- Adjustable version dip-switch, constant current or constant voltage to power LED to LED modules
- Connected to power supplies with maximum output voltage and current 90V and 2A
- Automatic operation
- High temperature NiCd batteries
- Charge indicator with FROR led cable
- Protection device against extensive discharge
- MAT4 DALI self diagnosis system with external module
- Charging device with supply is reinforced insulation able to recharge the battery normally after the test in clause 22.3 of the IEC 61347-2-7:2007.
- Supplied with 3,000 mAh battery pack

I disegni, le quote, i materiali ed i colori del presente catalogo si intendono a titolo indicativo. Nell'interesse della clientela, l'Azienda si riserva il diritto di modificare i modelli in ogni momento senza l'obbligo di preavviso.

L'indicazione della bandiera italiana nel presente catalogo è puramente indicativa. I prodotti potrebbero avere origine diversa da quanto indicato.

"Linealight Group" si riserva il diritto, senza alcun preavviso di modificare le caratteristiche dei propri prodotti come la disponibilità degli stessi in qualunque momento. Tutti i prodotti, relativi dati tecnici, illustrazioni e informazioni presenti sul catalogo non sono vincolanti per "Linealight Group". "Linealight Group" non risponderà di eventuali errori illustrativi, testuali e/o di traduzione. Ulteriori caratteristiche dei prodotti sono contenute nelle relative schede tecniche e fogli istruzione. Il presente catalogo è tutelato dalla legge sui diritti d'autore (legge 22/04/1941 n. 633 e della legge 14/12/1942 n. 1485: di esso è proibita ogni riproduzione totale o anche parziale). Tutti i valori riportati a catalogo sono valori di misurazione. I dati di flusso, CCT e potenza sono passibili di tolleranze di +/- 10 % .

The drawings, the measurements, the materials and the colours in this catalogue are understood to be indicative. In the interest of the clientele, the company reserves the right to modify the models at any time and without any obligation of advance notice.

The indication of the Italian flag in this catalogue is purely indicative. The products could be of origins other than those indicated.

"Linea Light Group" reserves the right, without any advance notice, to change the characteristics of their products, as well as the availability of the same at any time. No product, relative technical data, illustrations and information in the catalogue are binding for "Linea Light Group". "Linea Light Group" will not be held liable for any illustration, text and/or translation errors. More product characteristics are contained in the relative technical data sheets and instruction sheets. This catalogue is protected by copyright (law 22/04/1941 No. 633 and law 14/12/1942 No. 1485: this prohibits any reproduction, total or even partial). All values indicated in the catalogue are measured values. There is a +/- 10% tolerance for the flow, CCT and power data.

### Condizioni generali di vendita:

- 1) Linea Light S.r.l. si riserva la facoltà di eliminare in qualsiasi momento e senza preavviso, eventuali prodotti dalla collezione o modificare parti, dettagli o finiture al fine di migliorare le prestazioni dei prodotti o in osservanza alle normative CE, nonché di apportare variazioni ai prezzi indicati senza preavviso.
- 2) L'azienda si riserva di provvedere a tutte le misure, non escluso il blocco degli ordini e delle consegne, in caso di conflittualità tra diverse attività commerciali riconducibili alla propria forza vendita o ai suoi partners.
- 3) La merce viaggia a rischio e pericolo del committente qualunque siano le modalità di spedizione. Eventuali reclami dovranno essere comunicati per raccomandata al trasportatore entro 48 ore dal ricevimento della stessa.
- 4) Qualsiasi esportazione delle merci acquistate deve essere precedentemente autorizzata per iscritto da Linea Light S.r.l..
- 5) Il costo per eventuali imballaggi speciali richiesti dal cliente, verrà addebitato al costo totale.
- 6) L'installazione è esclusa; eventuale diverso accordo potrà essere trattato direttamente con il rivenditore autorizzato.
- 7) La tonalità della luce emessa dai LED è suscettibile di piccole variazioni (CCT della luce bianca, espressa in Kelvin; lunghezza d'onda dello spettro EM per la luce colorata, espressa in nanometri). La colorazione dei vetri è suscettibile di piccole variazioni di tonalità.
- 8) La merce rimane di proprietà di Linea Light S.r.l. fino al momento dell'avvenuto pagamento.
- 9) Linea Light S.r.l. garantisce al Cliente che i prodotti forniti sono esenti da vizi di fabbricazione e/o di materiale e la loro conformità alle applicabili norme italiane e comunitarie vigenti al tempo della consegna. Salvo specifico accordo diverso ed indicazione di determinate normative da individuarsi a rischio e pericolo del Cliente, il Cliente sopporterà ogni rischio di difformità dei prodotti ad altre normative. Linea Light S.r.l. garantisce i prodotti da vizi e difetti. A pena di decadenza, il Cliente dovrà denunciare i difetti rinvenuti mediante comunicazione scritta a Linea Light S.r.l. entro 8 giorni dalla consegna ovvero dalla scoperta in caso di vizio occulto. In ogni caso, il Cliente decade dal diritto alla garanzia qualora non abbia adempiuto ai propri obblighi di pagamento nei termini convenuti. La denuncia dei difetti rilevati dovrà indicare con precisione la natura dei difetti riscontrati, il numero del lotto di Linea Light S.r.l. a cui appartengono i prodotti che si affermano viziati e eventuali prodotti consegnati a terzi o immessi sul mercato. La garanzia non opererà in caso di normale degrado d'uso dei prodotti e/o difetti o malfunzionamenti dovuti ad imperizia od uso difforme dalle istruzioni di Linea Light S.r.l.. Il Cliente decade, altresì, dal diritto alla garanzia nell'ipotesi in cui abbia apportato modifiche ovvero abbia eseguito interventi di qualsiasi natura sui prodotti senza la preventiva autorizzazione scritta di Linea Light S.r.l.. La durata della garanzia è regolamentata secondo i termini di legge dalla consegna dei prodotti. Previa registrazione del Cliente sul sito [www.linealight.com](http://www.linealight.com) ed accettazione delle condizioni previste la durata della garanzia sarà di 5 anni decorrenti dalla data della fattura di vendita. Linea Light S.r.l. riconosce in ogni caso la garanzia di legge.
- 10) I termini di consegna indicati negli ordini, seppure accettati da Linea Light S.r.l., o in altro modo pattuiti, non possono essere considerati essenziali e hanno valore meramente indicativo, salvo diverso ed espresso accordo tra le Parti. Una ragionevole tolleranza è sempre ammessa. Pertanto, in caso di ritardo nella consegna, Linea Light S.r.l. non sarà considerata in alcun modo inadempiente e nessuna eccezione potrà essere sollevata né alcuna pretesa potrà essere avanzata nei suoi confronti a tale titolo.
- 11) Per gli articoli che riportano la dicitura "on request", il prezzo verrà concordato per ogni singola richiesta.
- 12) I Prodotti potranno essere forniti all'Acquirente con colori fuori standard e in esecuzioni speciali. Il prezzo, le quantità minime per ordine, le modalità ed i tempi di consegna verranno concordati caso per caso in relazione all'ordine e/o offerta di riferimento.
- 13) Le Condizioni Generali e tutti i contratti di fornitura tra Linea Light S.r.l. e i Clienti sono disciplinati dalla legge italiana, con esclusione della Convenzione di Vienna sulla vendita internazionale di beni mobili del 1980 e delle norme di conflitto. Per ogni e qualsiasi controversia nascente dalle Condizioni Generali e/o da qualsiasi contratto di fornitura, o ad esse/essi relativa sarà competente in via inderogabile ed esclusiva il Foro di Treviso.

### General terms and conditions of sale:

- 1) Linea Light S.r.l. reserves the right to eliminate and products from the collection or to modify parts, details or finishings for the purpose of improving the performance of the products or in observance of EC regulations, as well as make changes to the indicated prices at any time and without prior notice.
- 2) The company reserves the right to take any and all measures, including blocking orders and deliveries, in the event of conflict between different businesses traceable to its sales force or its partners.
- 3) The goods travel at the risk of the customer no matter what the shipping conditions are. Any claims must be communicated via registered, return-receipt post to the transporter within 48 hours of receiving the goods.
- 4) Any exportation of the goods purchased must be authorised in writing ahead of time by Linea Light S.r.l..
- 5) The cost of any special packaging requested by the customer will be charged at the total cost.
- 6) Installation is not included. Any other agreement must be made directly with the authorised retailer.
- 7) The colour shade of the light emitted by the LEDs is subject to slight variations (CCT of white light expressed in Kelvin; wavelength of the EM spectrum for coloured light expressed in nanometres). The colouring of the glass is subject to slight variations in shade.
- 8) The goods remain the property of Linea Light S.r.l. until full payment has been made.
- 9) Linea Light S.r.l. guarantees to Customers that the supplied products present no manufacturing and/or material defects and are compliant with Italian and EU standards in force at the time of delivery. Unless otherwise specifically agreed and in the event of specific regulations to be identified at the Customer's own risk and peril, the Customer shall bear any risk of the products' non-compliance with other regulations. Linea Light S.r.l. guarantees the products against faults and defects. Customers that do not report the defects found by sending written notice to Linea Light S.r.l. within eight days of delivery or of when they discover a hidden defect shall lose the right to the warranty. In any case, Customers that have not satisfied their payment obligations under the agreed terms shall lose the right to the warranty. The notice reporting the defects found shall include specific indication of the nature of such defects, the Linea Light S.r.l. lot number of the products claimed to be defective and any products delivered to third parties or put on the market. The warranty shall not apply to normal wear and tear of products and/or defects or malfunctioning due to incompetence or use inconsistent with Linea Light S.r.l.'s instructions. Moreover, Customers shall lose the right to the warranty if they have made changes to the products or have performed work of any kind on them without Linea Light S.r.l.'s prior written authorisation. The term of the warranty is governed by law from delivery of the products. When Customers register at [www.linealight.com](http://www.linealight.com) and accept the established terms and conditions, the term of the warranty shall be five years from the date of the sale invoice. Linea Light S.r.l. recognises legal warranties in all cases.
- 10) The terms of delivery indicated in the orders, even if Linea Light S.r.l. has accepted them, or otherwise agreed, may not be considered essential and are merely indicative, unless the Parties have expressly agreed otherwise. Reasonable tolerance always applies. Therefore, if delivery is delayed, Linea Light S.r.l. shall not be considered in breach in any way and no claims may be made nor challenges raised against it for this reason.
- 11) For the items indicated as "on request", the price will be agreed upon for each individual request.
- 12) The Products can be supplied to our clients with non-standard colors and special elaborations. The price, minimum quantities per order, methods and delivery times will be agreed by studying each case individually in relation to the order and / or offer reference.
- 13) All General Terms and Conditions and all supply contracts between Linea Light S.r.l. and Customers are governed by Italian law, with the exception of the Vienna Convention of 1980 applicable to the international sale of goods and the provisions for disputes. The Treviso Court shall have indisputable and exclusive jurisdiction for any and all disputes arising from the General Terms and Conditions and/or any supply contract or related to it.
